At 11:15 a.m. on November 12, 1975, Cartha DeLoach, former Assistant to the Director, telephonically advised me that he was interviewed under oath by Mike Epstein and David Boshong of the Senate Select Committee on November 11, 1975. He advised that he was represented by Charles McNellis, an attorney in the Washington law firm of Edward Morgan. The testimony was recorded by a stenographer and principally dealt with general guidelines Mr. DeLoach used in briefing various Attorneys General concerning FBI work. They also inquired concerning the Counterintelligence Program in that they asked him if he had ever briefed Ramsey Clark regarding the Counterintelligence Program. Mr. DeLoach described that portion of the interview as a "political tug of war" in which Epstein attempted to have him say that Ramsey Clark had not been briefed, and Boshong attempted to have him say that Ramsey Clark had been briefed.

Mr. DeLoach said that he testified that he had briefed Ramsey Clark regarding the Counterintelligence Program and also briefed Clark regarding wiretaps and microphones at Clark's specific request. Mr. DeLoach was asked whether he had written a memorandum regarding that briefing, but he could not recall specifically whether the memorandum was prepared. He did say that it was the practice for a memorandum to be prepared recounting conversations with Department officials. The Committee representatives then advised Mr. DeLoach that they had asked for such documentation from the Bureau, but a memorandum indicating DeLoach had briefed Ramsey Clark regarding the Counterintelligence Program was not received among the documents furnished by the Bureau. Mr. DeLoach requested me to advise the Bureau that in view of such a memorandum can be located, it should be forwarded to the Committee.

UNRECORDED COPY FILED IN 6-116009-

Memorandum to Mr. Adams
Re: Senate Select Committee

Mr. DeLoach was asked whether anyone from the Bureau had alerted him to the possibility that he would be asked concerning briefing Ramsey Clark and whether anyone had suggested to him what his response should be. He denied that such was the case, but did say that he had received a telephone call from Assistant Director Wannall asking him the question whether DeLoach had briefed any Attorneys General regarding the Counterintelligence Program.

Mr. DeLoach was requested by the Committee to return on Tuesday, November 18, 1975, at 2:30 p. m. for additional interview at which time the subject will be the Southern Christian Leadership Conference and Martin Luther King.

Mr. DeLoach said that a Mr. Wallach of the Committee's staff described a memorandum which he claimed that DeLoach had prepared regarding Jack Anderson and the Warren Commission. Mr. DeLoach said that he could not recall such a memorandum.

Mr. DeLoach requested that the Bureau make available a Bureau representative for consultation at 2:30 p. m. on November 18, 1975. Mr. DeLoach said he made this request because he was uncertain as to the scope of the testimony he might be asked to give regarding Martin Luther King. In response to his question, I told Mr. DeLoach that information concerning certain confidential sources involved in the origination of the investigation of Martin Luther King has not been discussed with the Committee staff, but limited discussion has been had with Chairman Frank Church. I told Mr. DeLoach that inquiries concerning the informants involved in the basic information in that case should not be answered due to the sensitivity of the information.

RECOMMENDATIONS:

1. That the Intelligence Division determine whether there is a memorandum describing a briefing of Ramsey Clark by Mr. DeLoach concerning the Counterintelligence Program.

RECOMMENDATIONS (CONT'D)

2. That the above-described memorandum be made available to the Committee with such excisions as may be necessary.

3. In response to the specific request of Mr. DeLoach, a Bureau representative familiar with the King matter should be available for consultation at the time of Mr. DeLoach's testimony on November 18, 1975.

In response to a Senate Select Committee request, a letter and letterhead memorandum dated 11/17/75 were prepared furnishing the Senate Select Committee information pertaining to name-check requests involving various news media personnel, Congressmen and other individuals which requests were made at the request of the White House. Since this material impacted on the White House, SA Paul V. Daly of this Division contacted assistant Counsel to the President James Wilderotter on 11/19/75 and advised him of the material which was being furnished to the Senate Select Committee. He was generally briefed on the content. Wilderotter stated he had previously discussed this material with Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination in the Department and given authority for the material to be transmitted to the Committee. He, however, requested that in view of the contents of the material the White House be immediately furnished a copy of the material being transmitted. Wilderotter requested that he be kept advised of any material of a similar nature which impacted on the White House which was being furnished to Congressional Committees.

The Intelligence Division was advised of Wilderotter's request that copies be furnished to the White House and stated that they would insure this was done.

Vice President Spiro Agnew called. He said he wanted to talk to me about something to see whether I could be of some assistance. He said he was really concerned about the continuing inflammatory pronouncements of Ralph D. Abernathy. I commented that he is one of the worst. The Vice President said he has seen some of the background material on him and he knows what that is, but it is beyond the pale as far as executive use is concerned. He said in view of what went on in Augusta and other places, it is important to have the information that revolved around this; the involvement of these people, what information we have, whether fleeing from looting or what is going on. He asked if there is any information available.

I told him we are working on these at the present time, both in Augusta, Atlanta, and Jackson, where the recent demonstrations have taken place. I said we have pretty well concluded our investigation at Kent State University as to the shooting and, as always happens, we found a considerable amount of firearms in the dormitories and rooms of the students, whether they used them or not is a question; some say there was sniping and some say there was not. I said the same is true at Jackson as there are allegations of sniping at the troops before they fired and denials. We are interviewing all the individuals who had any knowledge, students, et cetera. I said the problem at Kent was they closed the university and the students departed for all parts of the country, but we finished the preliminary report on that and will finish today the final report on Kent, while at Atlanta, Augusta, and Jackson, it will probably be another week before we will have the preliminary reports. I said it is six of one and a half dozen of another, as you can't say it is proper to shoot, but we found at Kent that they were throwing 7 pound rocks at the soldiers

have a demonstration today and the Guardsmen are present, but they have been blocking Highway No. 1 most every day. I said very fortunately, they have arrested and charged three of the leaders for the damage done to the Administration Building when they went in the other night and broke the furniture, et cetera.

The Vice President said what he wants to be able to do is bring out some facts the media conveniently overlooked. I said they never give the things that are being done constructively, many times by students, to try to prevent this, but they emphasize all the things these jerks are doing.

The Vice President said he saw a picture about Augusta showing some of the Negroes jumping out of store windows with loot and booty and fleeing and you never hear anything about that. He said whatever I can give him that can ameliorate some of the impact; that he understands some of these things are wrong and we are probably going to find some of the shootings showed too much force, but none the less, the people have to understand the very thrust of the newspaper articles is that a bunch of police shot down six Negroes and what happened before -- why did they shoot at them -- not just because they felt like killing people. I said they were severely provoked at Kent and we will finish Augusta, Atlanta, and Jackson this week.

I told the Vice President I was sending to him Wednesday, the material Kent Crane asked for, which gives in summary the material we have sent in detail.

The Vice President said he thought he was going to have to start destroying Abernathy's credibility, so anything I can give him would be appreciated. I told him I would be glad to. I said I was the only one who spoke out against Martin Luther King and I got hell, but I did not give a damn because it is more like bouquets than brickbats from some people. The Vice President said we can't let demagogues become martyrs and heroes. I said I had briefed the Appropriations Committee about his (King's) background and it has been effective recently because they have been trying

Memorandum for Messrs. Tolson, DeLoach, Rosen, Sullivan, Bishop

to make a national holiday of his birthday, and many of the congressmen who know the facts are opposing it. I said I did not put it on the record, but I told the Appropriations Committee about his Piccadillos and his degeneracy as we had recordings, but it was never made public as I gave it off the record to the Committee and they have, in turn, briefed some of their colleagues, but I will see that he, the Vice President, gets the details even before we finish the report.

The Vice President said he would like to be thoroughly conversant with all of that because if the crisis comes where we need to throw it, he will. I told him I would get it over in the next 24 to 48 hours as to the high-lights. The Vice President thanked me.

Very truly yours,

The Pittsburgh "Point," a weekly newspaper dated 10/24/68, contains an article which indicates that Dr. RALPH ABERNATHY will speak at a mass rally at Central Baptist Church, Pittsburgh, Pa., on 11/2/68, as part of a drive by the Southern Christian Leadership Conference (SCLC) to educate Black communities concerning the three major presidential candidates.

The Congressional Record dated 5/6/68, on Page H3389, contains an article which indicates that the 1965 edition of the "Herald," 407 Butler Street, Anderson, S. C., South Carolina's oldest Negro newspaper, contains the testimony of a 15 year old female member of ABERNATHY's church. The testimony relates to a filthy and perverted sex scandal between ABERNATHY and the girl according to the Congressional Record. It is believed that if information relating to this sordid episode on the part of ABERNATHY were made public in Pittsburgh, his effectiveness would be curtailed.

Enclosed for Pittsburgh are three Xerox copies of page H 3389 of the Congressional Record, 5/6/68. One copy is enclosed for Columbia for information.

It is felt that the mailing of these copies of the Congressional Record from Pittsburgh to the people suggested in referenced airtel would be more effective than a mailing of the Herald newspaper from South Carolina. There would be less chance the information would be discounted as a Klan trick if the information was received from Pittsburgh in a way to indicate a member of the local community sent it. Also the same page in the Herald contains an article condemning Martin Luther King, Jr., and accusing him of traveling to Puerto Rico with a young girl. If the paper were used, this information on King would only serve to "muddy the water," and make less effective the information on Abernathy.

For your information the edition of the Herald was dated 6/19/64, not 6/19/65 as mentioned in the Congressional Record.

NOTE:

Ralph Abernathy, President of the SCLC, is to speak at a Pittsburgh Church on 11/2/68 to educate the black community on the elections. Pittsburgh suggested that the Herald, reportedly a South Carolina newspaper, be sent to the minister and Chairman of Deacons of the Church prior to Abernathy's appearance. The paper contains an article about a sex scandal involving Abernathy and a 15-year-old girl. The Congressional Record also contains information about this scandal.

 Will \$4750 make a difference?
 Bankers Trust will lend you up to that amount, to help you become a Bachelor of Something.

 We'll lend you up to a maximum of \$7500.
 You don't pay us back until after you graduate. Then, you get up to 10 years to pay it off.

 Bankers Trust is making these loans in cooperation with the New York Higher Education Assistance Corporation.
 The loans are for those ready to start college now, those already attending, and those who only go part time.
 The prerequisites: you must be a U.S. citizen and a resident of New York State. And your parents must meet the financial qualifications. Come into any Bankers Trust branch for an application.

RALPH ABERNATHY—PREACHER OR PERVERT

Mr. RARICK. Mr. Speaker, I ask unanimous consent to address the House for 1 minute and to revise and extend my remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. RARICK. Mr. Speaker, ever since Ralph Abernathy assumed control of the rich man's "poor people's march" to occupy Washington, most southerners who know about Abernathy have shuddered at the deceit and national prestige buildup given Abernathy as a leader.

We have kept our peace—knowing that any comment would not receive fair consideration—in all probability discounted as "racism."

But the news establishment, knowing the facts, continued to be silent until the Montgomery Advertiser on May 2, 1968, spoke out.

In a lead editorial captioned, "The Leader of the Great Crusade," the Montgomery Advertiser slashed into Abernathy's reputation by calling him, "an unpolished and disreputable clod," and politely, I assure you, rehashed the sex scandal involving Abernathy and a 15-year-old female member of Abernathy's church.

I have a complete transcript of the testimony of the exploited girl given at the jury trial of her husband—who was acquitted by a jury of chasing and striking at Abernathy with a hatchet.

The testimony of the youthful victim, Vivian McCoy Davis, uncontradicted by Abernathy, is so filthy and perverted that I cannot—in good conscience—place it in the Record for our colleagues' examination.

I will, however, make her testimony available on request to my colleagues, or it can be obtained from the Herald, 407 Butler Street, Anderson, S.C.—South Carolina's oldest Negro newspaper—by asking for a copy of their June 19, 1964,

edition which contained a full account of the sordid background of Ralph Abernathy including the testimony.

I can only add that Abernathy apparently has little control over himself—he couldn't have control of the threatened booby trap merging on Washington under the banner of a poor people's march. But he can be used to exploit poor people.

Mr. Speaker, I place the May 2 editorial from the Montgomery Advertiser in the Record at this point:

THE LEADER OF THE GREAT CRUSADE

It is preposterous but unfortunately true commentary on the recent history of the most powerful country on earth that it is now receiving ultimatum from the likes of Ralph D. Abernathy.

Abernathy succeeded to the late Dr. King's mantle in the Southern Christian Leadership Conference by virtue of an association dating from the Montgomery bus boycott.

King was at least glib and adroit in the guile by which he managed to summon an alarming number of Americans. But Abernathy is an unpolished and disreputable clod best remembered here for what may have been a record dash from his church office on the night of Aug. 29, 1958.

Panic-stricken and screaming, he was pursued by an irate, hatchet-wielding husband who had accused him of having a relationship with his wife more suited to the pages of Kraft-Ebing's Psychopathia Sexualis than a family newspaper.

The wife of his assailant told a Montgomery Circuit Court jury in November 1958 that she had submitted to unnatural sex acts with the Reverend before her marriage, beginning at the age of 15, and that "he never stopped chasing me" even after her marriage to Edward Davis. She had been a member of Abernathy's church.

On the day Davis accosted Abernathy in his office, armed with pistol and hatchet, Abernathy had called her Mrs. Davis testified.

The jury deliberated only 10 minutes, obviously invoking the unwritten law, before acquitting Davis of attempting to do in the preacher.

Yet, basking in the reflected glory of King, Abernathy emerged from the revolting case unscathed in the eyes of SCLC.

In 1960, he was signally honored by Prime Minister Kwame Nkrumah, the subsequently deposed dictator of Ghana, by being invited to Accra for a "Conference on Non-Violence and Positive Action for the Security of Africa."

This was heady stuff for a man who, but for his color and the accident of time and place, would never have been heard from. But he was to go on to loftier things, despite his unsavory background, finally being elevated to King's throne after the tragedy in Memphis.

Monday he led the vanguard of a movement which is trying to intimidate Congress not only into massive redistribution of the wealth to the poor (along with the shiftless), but into changing foreign policy. Vietnam is only one item of the agenda of the amorphous mass which may number in the tens of thousands (hundreds of thousands, some say) who will attempt to immobilize Washington by late May.

In their initial protest Monday, the Abernathy-led extortionists denounced U.S. diplomatic and business ties with Portugal and South Africa. The United States must not be encumbered, the formal statement said, "with the support in any way of racist societies abroad."

Although Abernathy keeps mouthing the old line about non-violence, this is once again semantic camouflage for the pursuit of violence unless Washington—the President and Congress—knuckles under to every demand.

Today, the first of the poor parades, as the march leaders described it, scheduled to set out from Memphis, Tenn., via Marks, Miss., to other cities to start from other parts of the Midwest, South, North and West. The first contingents of what is to be a seige of Washington are due May 12, with the escalation of the march to peak strength for an inauguration camp-in by May 30. According to a table, "major demonstrations" are scheduled for May 20.

By June, Abernathy's invading army, it figured, there will be shantytowns in Washington and the work of the government will be paralyzed—unless:

The government meets all demands, including massive new federal pay raises, a guaranteed income program, liberalization of welfare regulations, and such changes in Federal Reserve policy as the blackmaller may demand.

Terror is not the appropriate response to Washington: righteous anger must be met by massive force. Unless the people have the courage to turn back by whatever force is necessary, they will be intimidated, the words of Sen. C. Byrd, West Virginia Democrat, prophetic:

"I am greatly concerned for the future of our country. I feel that we can see the signs of destruction of our country within."

It would all be sickening if the leadership were other than Ralph Abernathy—an unprincipled and unspoken-out any redeeming qualities, demagogue worse than Stokely Carmichael. If only because he is so stupidly unfit to lead the smallest rural community, less so as the representative of the unfortunate poor.

WILBUR MILLS HON. CLEMSON UNIV.

Mr. DORN. Mr. Speaker, I ask unanimous consent to address the House for 1 minute and to revise and extend my remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

Mr. DORN. Mr. Speaker, Wilbur Mills, our esteemed and distinguished colleague from Arkansas, was in my district on Saturday, May 4, 1968.

When Clemson University, a distinguished colleague, was in turn honored by the great Communist Means for more than 10 years, Mills has exercised a special influence on this Nation on the entire free world, and superb leadership in trade, taxation, social security, responsibility has profited the destiny of this Nation of freedom in the West.

WILBUR MILLS HONORED BY CLEMSON UNIVERSITY

Mr. DORN. Mr. Speaker, I ask unanimous consent to address the House for 1 minute and to revise and extend my remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

Mr. DORN. Mr. Speaker, WILBUR MILLS, our esteemed and beloved colleague from Arkansas, was honored by Clemson University in my congressional district on Saturday, May 4.

When Clemson University honored our distinguished colleague, WILBUR MILLS, Clemson was in turn honored. As chairman of the great Committee on Ways and Means for more than 10 years, WILBUR MILLS has exercised a great and beneficial influence on this Nation, and indeed on the entire free world. His wise counsel and superb leadership in international trade, taxation, social security, and fiscal responsibility has profoundly influenced the destiny of this Nation and the course of freedom in the Western World.

WILBUR MILLS was awarded an honorary doctor of laws degree by Clemson University for his statesmanship and leadership in preserving the economy of our country and for his forthright stand for fiscal responsibility.

Mr. Speaker, it was fitting and proper that our great colleague be honored at Clemson University, named for Thomas G. Clemson, son-in-law of John C. Cal-

houn, and the first Superintendent of the Department of Agriculture. Clemson University is on the old plantation of the immortal John C. Calhoun, one of the five greatest Senators of all-time.

Mr. MILLS, while in the Calhoun mansion—one of the best kept shrines in America—was presented a gavel and pounding block made from a tree grown on the Calhoun mansion grounds by Dr. Wright Bryan, Clemson vice president and former editor of the Atlanta Journal and the Cleveland Plain Dealer.

The lovely and charming Mrs. MILLS accompanied her distinguished husband to the Clemson campus. His excellency, the Honorable Robert E. McNair, Governor of South Carolina, and our own beloved and great colleague, the gentleman from South Carolina, MENDEL RIVERS, chairman of the Committee on Armed Services, were present for this, one of the most momentous occasions in the history of my congressional district and indeed the State of South Carolina. The dynamic and able president of Clemson University, Dr. Robert C. Edwards, presented this coveted honorary degree to Chairman MILLS on behalf of the board of trustees and the faculty.

Mr. Speaker, the chairman of the Clemson board of trustees is a friend of yours, the Honorable Edgar Brown, of South Carolina, who sat beside William Jennings Bryan at the Democratic National Convention in New York in 1924 and who for 40 years, as State senator and as chairman of the senate finance committee, has provided for South Carolina fiscal responsibility. Mr. Speaker, another lifetime member of the Clemson board is the Honorable James F. Byrnes, who served with honor in this House and the Senate and was perhaps best known for his distinguished service as Secretary of State and as "Assistant President" under the wartime administration of President Franklin D. Roosevelt.

Mr. Speaker, I commend Clemson University for honoring, on its graduation day, this great and good American who today is providing that leadership so essential to the future of young America.

Mr. FULTON of Pennsylvania. Mr. Speaker, I ask unanimous consent to address the House for 1 minute.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

Mr. FULTON of Pennsylvania. Mr. Speaker, on Wednesday, May 1, 1968, I left Washington by plane at 5 o'clock p.m. to go to West Liberty, W. Va., to make the keynote speech at the West Liberty State College students' mock national political convention.

After I left the floor on that date the bill, H.R. 16913, making appropriations for the Department of Agriculture and related agencies for the fiscal year ending June 30, 1969, was passed.

I was paired generally with the gentleman from North Carolina [Mr. GALIFIANAKIS] on final passage of that bill.

Mr. Speaker, if I would have voted "nay."

Mr. STUCKEY. Mr. Speaker, I am unanimous consent to make remarks at this point to include extraneous matter.

However, Mr. Speaker, I learned that one of our men to carry out an order.

I was so furious I said to Governor Maddox explain that something be done at manding Officer came in to talk to me before I wrote Governor Maddox and I said "I just mailed it."

I do not think I need Mr. Speaker.

And, for what good reason issued?

The reason given was people view the Confederate symbol of racism, all contained bars and removed. Mr. Speaker, every Southern State, especially all Georgia Mississippi flags must immediately. Other flags from New York and Ohio will remain displayed.

COINTELPROS

This is to advise of information furnished to the Senate Select Committee (SSC) on 11/13/75, documenting information previously provided to the Committee indicating our Cointelpro efforts had phased down prior to formal discontinuance of the programs on 4/28/71.

On 11/7/75, Barbara Banoff of the SSC staff advised the Committee had reviewed the exhibits in the Petersen Report on FBI Cointelpros in an effort to determine if Cointelpro actions had been phased down as indicated by SA David Ryan in his deposition to the Committee in 10/75. Banoff stated SSC staff members had reviewed all proposals for Cointelpro action in the Communist Party and New Left programs, as reported in the Petersen Committee Report exhibits, and these verified the fact these two programs had been considerably phased down prior to 4/71. She stated the Petersen Report exhibits did not list the dates of activities for proposals in the Black Nationalist, White Hate, and Socialist Workers Party programs and requested this be furnished to the Committee. According to Banoff, this information would be broken down for each of the five programs to show how many actions were instituted in each quarterly period during the life of the individual programs, and that a chart would be prepared for the Committee's use.

After obtaining information from the IS-1 and the IS-2 Sections (enclosed), the requested data for the additional three programs was furnished to Banoff on 11/13/75. These charts do indicate the programs had phased down considerably prior to their formal termination in 1971.

Dear Mr. Elliff:

Handwritten: Elliff 11/15

This refers to your request for information concerning participation by the Customs Service in a covert foreign intelligence operation of the FBI which relates to "denied areas" immigrants to the United States who decide to return to their country of origin or to some other "denied area." I understand from our conversation that the intelligence manual of the FBI refers to a procedure in which the FBI would request Customs officials to examine or to facilitate the FBI inspection of the outgoing baggage of such individuals. This appears to be a clandestine effort to determine if such "defecting emigrants" are transporting the products or other evidence of espionage or if they are being coerced into leaving the United States.

As I mentioned in our brief telephone conversation yesterday, Customs has advised me that it has no program for assisting the FBI in the inspection of outgoing baggage and has not been approached, at the Headquarters level, for this type of assistance. Its concern is with incoming baggage, and Customs doubts that it could segregate a particular individual's outgoing bag for inspection.

Handwritten initials: JDO

The Customs Service acknowledges that an FBI request for assistance could have been made with an individual Customs official at the local office level without the knowledge of Customs Headquarters

A.12. What is the authority and procedure for inspections on behalf of another agency such as CIA, FBI, DEA, IRS, Postal Service, and Internal Security Division?

The US Customs Service has the authority under 19 U.S.C. 1499 to examine all merchandise arriving in the United States. We believe this authority encompasses and authorizes Customs to conduct inspections at the request of the CIA, since the statute states that imported merchandise "shall not be delivered from Customs custody, except under such bond or other security as may be prescribed by the Secretary of the Treasury to assure compliance with all applicable laws, regulations and instructions which the Secretary of the Treasury or the Customs Service is authorized to enforce" 50 U.S.C. 403 authorizes Federal agencies to cooperate with the CIA. There are no established procedures for Customs inspections carried on at the behest of the CIA. Any request would be handled on a case by case basis.

→ The language of 19 U.S.C. 1499 as cited above may also, in our opinion, be potentially applicable in connection with the FBI examination of imported shipments. We are unaware of any established procedure for Customs inspections carried on at the behest of the FBI. Any request would be handled on a case by case basis. ←

The US Customs Service shares with DEA enforcement responsibility respecting certain controlled substances the importation of which is prohibited by 21 U.S.C. 952. 19 U.S.C. 482 and 1582 provide the authority for the Customs search of persons and baggage. Final operating procedures between DEA and Customs have never been formalized. Attachment A is the interim Customs-DEA operating procedures issued by the US Customs Service, Attachment B is the interim Customs-DEA operation procedures issued by DEA.

Customs assists IRS in enforcing the Currency and Foreign Transactions Reporting Act, 31 U.S.C. 1051 et seq. The Treasury Department Regulations issued to implement 31 U.S.C. 1051 et seq., Part 103 of Title 31 CFR, require that reports be filed with the Commissioner of Customs by individuals engaged in transporting currency or other monetary instruments in excess of \$5,000. These reports must be filed upon entry into or departure from the United States of such an individual. The provisions of 19 U.S.C. 482 and 1582 are used to search persons and baggage arriving from foreign countries in order to ascertain compliance with many Federal and state laws of which The Currency and Foreign Transactions Reporting Act is one.

With respect to inspections on behalf of the Postal Service, we are unaware of any, however, please see the response to question B.16 for mail search procedures.

With respect to requests from the Internal Security Division (now in the Criminal Division), Department of Justice, for Customs to conduct an inspection, we are not aware of any such requests, nor are there any procedures established for honoring such requests.

THE GENERAL COUNSEL OF THE TREASURY
WASHINGTON, D.C. 20220

NOV 18 1975

Dear Mr. Chairman:

By letter of July 31, 1975, to Mr. Vernon D. Acres, Commissioner of Customs, you submitted on behalf of the Select Committee an initial request for information and documents relating to the U.S. Customs Service. By letter of August 14, Mr. John T. Elliff, Director of the Committee's Domestic Intelligence Task Force, advised Mr. J. Robert McBrien of the Treasury Department that certain questions were of priority interest. The documents enclosed and forwarded herewith have been assembled by the Customs Service in response to the designated priority items. Part A contains responses to General Requests 1, 7--10, 12 and 13. Part B responds to Specific Requests 1--9, 11, 16, 19 and 20.

Please note that discussions between Messrs. Elliff and McBrien have resulted in this clarification of the meaning of "intelligence activities:"

- National security intelligence activities:
domestic or foreign information gathering by Customs or the facilitation by Customs of information gathering by other agencies for national security purposes;

- Law enforcement intelligence activities:
domestic or foreign information gathering by Customs which relates to accumulating a body of preventive knowledge or general background knowledge on areas of criminal enterprise (e.g., organized crime, narcotics trafficking) as contrasted with investigations of specifically alleged offenses (criminal cases).

ENCLOSURE

62-116395-1090

With these differences in mind, we believe it is important to recognize that the "law enforcement intelligence activities" of the Customs Service do not constitute a category of endeavor distinct and separate from the investigation of criminal cases and the border and port-of-call inspection functions. For the most part, these activities are not readily distinguishable; and, in fact, criminal case investigations which do not produce some "law enforcement intelligence" are rare indeed. The General Requests under Part A have, therefore, been answered with due consideration to these factors.

The Customs Service has advised us that responses to the questions of secondary priority will be forthcoming shortly. We hope that the enclosed materials and our forthcoming responses will be helpful to the Select Committee, and we will be pleased to discuss further any of the matters raised by the Committee's request.

Sincerely,

(Signed) Richard R. Albrecht

B.11. Under what circumstances, if any, have Customs Service facilities been made available to agencies of the national security intelligence community?

As it has in the past, Customs continues to cooperate with and assist other Federal agencies, including those of the national security intelligence community, in the performance and enforcement of their statutory responsibilities on those occasions when these agencies request the assistance of the Customs Service. At least one significant example of this cooperation has been the subject of interviews by the Committee's Domestic Intelligence Task Force with a number of present and former Customs employees.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI INSPECTOR BY SSC

NOTE:

Oral information mentioned above was furnished by Moore to W. O. Cregar of the SENSITIVITY 75 Project, on 10/3/75.

Interview of Donald E. Moore by Mr. James Dick
of the Senate Select Committee Staff

After being sworn by Senator Huddleston, I was interviewed under oath by Mr. James Dick in the Old Carroll Arms Hotel on 1 October 1975. The interview started at approximately 1020 hours and lasted until 1345.

During the interview I was shown numerous Bureau documents and asked questions about them. Some of the meetings described in the documents I had no recollection about but I answered all the questions to the best of my ability.

I said that Mr. Hoover had personally approved the various mail programs. On some memoranda which did not go to Mr. Hoover's office and were signed off by Mr. Belmont I said I thought this was because Mr. Hoover had approved the program either orally or in a prior memorandum and therefore I thought Mr. Belmont did not send the subsequent memorandum in to Mr. Hoover.

I was asked if any Attorney General ever was informed of the mail program and I advised that the only one I personally knew was advised was Attorney General Katzenback. I explained that sometime in 1965 I received a phone call from Mr. Belmont on a Saturday morning and he asked me to come to his office as we needed to see the Attorney General with regard to some testimony the previous day before a subcommittee chaired by Senator Long of Missouri. Mr. Belmont, in his office, advised me that Chief Postal Inspector Henry Montague had appeared before the Long Committee and had been told before his testimony not to answer any questions that might relate to national security matters. When he was asked whether mail ever left the custody of the Post Office Department he answered no as he believed to decline to answer would be tantamount to a yes and could affect national security. Mr. Belmont talked to Mr. Tolson by phone and thereafter we met the Attorney General in his office. Courtney Evans, former Bureau Assistant Director and then a Special Assistant to the AG, was also present but Mr. Dick did not

MOR-16

ask me who was present and I did not volunteer Courtney's name. Either Mr. Montague had contacted the AG or Mr. Belmont had mentioned the matter to him for as I recall the AG was aware of the problems when we arrived. After discussing the matter, as I recall the AG said he would try to see Senator Long to get the matter resolved. Mr. Dick asked if we told the AG we were opening the mail we received from the Post Office and I said I could not specifically recall this. He asked if we would have advised the AG if he had asked and I said yes. As to whether I learned later if the AG ever discussed this with Mr. Hoover and if we were advised to discontinue I said I knew of no such discussion, if one took place, and we were not told by Mr. Hoover to discontinue until mid-1966. I also did not know if the AG saw Senator Long.

Mr. Dick asked about the Baltch case and if I had informed former Assistant Attorney General Yeagley about mail intercepts in the case and I said I had. He asked if Mr. Yeagley had informed the Attorney General and I said I did not know but I believe that Attorney General Kennedy was advised by the Bureau later. As I recall when trial started the US Attorney had made a statement that required the government to either amend the statement or drop the case and after Courtney Evans, then still in the Bureau, had advised the AG of the mail intercept the AG decided the case should be dropped. Mr. Dick asked if I was aware of a briefing Attorney General Kennedy received in the New York office and if I knew whether the mail programs were discussed. I said I remembered the briefing, understood it was very comprehensive, but I do not know if it covered the mail programs.

Mr. Dick asked if I knew whether any other Attorneys General had been advised of the Bureau's mail programs and I said I did not know of any. I also did not know of any Postmaster General who had been advised, or Presidents.

With regard to the Hunter Project I said I had been aware of it from the time the FBI started receiving material from it. I could not recall how we were first advised but I believe either the Post Office suggested we go to CIA or the Post Office went to CIA and suggested we be advised. He asked if Mr. Hoover was aware of it and I said he was.

Mr. Dick asked me various questions about my contacts with Mr. Montague, several of which were set forth in the various Bureau memoranda I was shown. With regard to the institution of Z coverage in New York City he asked me if we first made contact with the Chief Postal Inspector here and I said we did. He asked who contacted him and I said I believed Mr. Boardman contacted Mr. Stephens who was then the Chief Postal Inspector. Mr. Dick asked if I had ever contacted Mr. Stephens and I said to the best of my recollection I had never met him and was quite sure I had not contacted him on any mail program. In response to a question as to whether I had ever advised Mr. Montague the FBI opened mail received from the Post Office I said I had not.

I advised Mr. Dick I knew of no mail intercepts by the FBI after 1966 and was quite sure there had been none.

**RE: INTERVIEW OF FBI SPECIAL AGENT
(SA) HOMER W. SCHWEPPE BY AN
SSC STAFF MEMBER**

The following concerns an interview of FBI SA Homer W. Schweppe by an SSC Staff Member.

On September 16, 1975, SSC Staff Member Paul Wallach advised the Legal Counsel Division of this Bureau that he desired to interview Schweppe concerning his knowledge of mail openings. Pursuant to this request, the FBI waived Schweppe's confidentiality agreement for the purpose of the interview on the indicated subject.

Schweppe's report of the results of the interview is contained in a memorandum dated October 15, 1975, a copy of which is attached. Schweppe furnished the following additional information relative to the interview.

In a brief off-the-record exchange between Schweppe and SSC Staff Member James Dick prior to the interview, Dick explained that he was interested in Schweppe's knowledge of the "Hunter Project." When Schweppe indicated he was not familiar with the term, Dick consulted his notes to confirm whether Schweppe was, in fact, the party he intended to interview. Dick's check corroborated that Schweppe's name had been provided him by the Department of Justice as an individual with knowledge of "Hunter" and related projects.

RE: INTERVIEW OF FBI SPECIAL AGENT (SA) BY SSC

During this initial exchange, Schweppe indicated that his recollection of specifics such as "Exactly when?" and "Did you ever see?" or "When did you first see or learn?" or "How many times did you see?" based on material possibly seen by him over a period of several months as far back as 1958 was limited. Dick agreed and suggested that there really might be no need to continue the interview, but in the end he suggested that since all parties were in place, the interrogation might as well proceed.

NOTE:

Wallach's contact with the Legal Counsel Division was with Supervisor P. V. Daly. The information reported in the LHM which augments that in Schweppe's LHM was derived from WFO airtel 10/15/75, "Senstudy 75," which was the cover submitting Schweppe's LHM.

RE: INTERVIEW OF FEDERAL BUREAU OF INVESTIGATION
(FBI) SPECIAL AGENT HOMER W. SCHWEPPE BY
SSC STAFF MEMBER JAMES DICK

On September 23, 1975, after a short orientation discussion and after advising him of his rights under the Constitution and reminding him that his appearance was voluntary, SSC Staff Member James Dick interviewed FBI Special Agent Homer W. Schweppe in the presence of SSC stenotypist Susan Hanback regarding his knowledge of the following: The "Hunter Project," "Bureau Informant 200," "the SAM Survey," "Z Coverage," and opening of mail by FBI employees.

At the outset Dick asked Schweppe to document his FBI service. Schweppe responded by listing the following: Assignments in San Francisco from late 1946 to mid-1947; in Los Angeles from mid-1947 to mid-1951; at FBI Headquarters (FBIHQ) from May, 1951, to May, 1958, and again from late 1960 to November, 1961; in the Washington Field Office (WFO) of the FBI from May, 1958, on, except for the 1960 to 1961 period just cited.

During the course of the interview Schweppe was also asked to indicate the nature of his assignments at FBIHQ. He indicated he was assigned for the main part to units within the Domestic Intelligence Division dealing with Soviet military attache personnel and with members of Elizabeth Bentley's "espionage ring."

~~SECRET~~

Dick's initial inquiry was directed to the extent of Schweppe's knowledge of the "Hunter Project." When Schweppe conceded he was not familiar with the term, Dick offered as an exhibit for review a copy of a February 6, 1958, memorandum directed to Director Hoover entitled "Hunter Project." This memorandum outlined arrangements to be effected between the FBI and the Central Intelligence Agency (CIA) regarding the manner in which the FBI would be provided the results of CIA's monitoring of certain overseas mail. On review of the document, Schweppe stated he was certain he had never seen that memo, but he acknowledged that on the basis of the memo he had a recollection about such activity by the CIA. Schweppe recalled that at some point prior to his transfer from FBIHQ in May, 1958, and he indicated he felt it must have been earlier than the February 8, 1958, date indicated above, he had pass across his desk in the normal flow of official mail what he referred to as the modern day version of computer printout lists consisting, to the best of his recollection, of names of what were presumed to be Soviet residents as well as addresses in the Soviet Union. Schweppe indicated that he had seen several such lists but since they did not seem applicable to the type of cases being supervised by Schweppe at the time, he paid them little heed. He recalled that at least with some of the later printouts there were instructions accompanying the printouts to the effect that names and/or addresses of interest should be flagged for what was presumed to be a "watch list" of some sort.

Dick asked specifically when Schweppe first became aware of the lists mentioned above; whether he was familiar with FBI Form 5-38, a form prepared for placing a request on the "watch list"; whether he had seen any of the results of the CIA monitoring; and whether he had seen any reproduction of correspondence photographed by CIA in connection with the "Hunter Project."

~~SECRET~~

Schweppe replied that he thought the lists he mentioned earlier probably were seen by him before February, 1958, but he acknowledged he could not recall exactly when. He said he could not now recall ever having seen FBI Form 5-88. He replied that, since he felt he had never placed a name or address on the "watch list," he would not have any specific results routed to his personal attention. He added, however, that if the results were routed to all supervisors concerned with Soviet intelligence and related matters, he probably did see such results and routinely initialed the accompanying routing slips. He said he could recall no specific "CIA results" if, in fact, he did see anything specific.

Dick asked whether Schweppe was aware of who designated the routing of the lists he had seen, and Schweppe responded that he assumed it was some individual in the office of the division's Assistant Director who performed such an administrative function. Schweppe said he did not recall a Miss Triplett (phonetic), who, according to Dick, was responsible for routing the "Hunter Project" material to appropriate supervisors. Schweppe said he could have been included in such routing because of his assignment.

Dick then queried Schweppe on his familiarity with the term "Bureau Informant 200" (BI 200), when he first became aware of the term, and whether he ever saw any of the material attributed to that informant. In this connection Dick exhibited another FBIHQ memo dated February 6, 1958, which referred to BI 200 as the designation used by FBIHQ to forward to its field offices information received from CIA under the "Hunter Project." Schweppe was unable to recall exactly when he first became aware of the use and identity of BI 200, but he assumed it was in early 1958. He said he could recall seeing information attributed to BI 200 both while at FBIHQ and in WFO but that he could no longer recall the specific nature of the items involved. He said he presumed that all of them dealt with Soviet-related investigatory matters. Schweppe said he did not believe he has seen any references to BI 200 in the past 15 years or so and that he may have seen as many as five references a year before that.

Dick also queried Schweppe about his knowledge of the "SAM Survey" (SAM) and "Z Coverage" (Z). He asked Schweppe whether he knew when "SAM" and "Z" were initiated, what they consisted of, when they ceased, when he first became aware of them, and whether he had seen any results of those projects. Schweppe replied that "SAM" and "Z" were on a need-to-know basis within WFO but that he in time heard about them through office "shop talk" and then concluded that those designations indicated projects in which mail to and/or from the Soviet Union and Soviet bloc countries was monitored. He said he did not know when those projects were initiated or when they terminated. He said that he would have to guess within a tolerance of two or three years that he first heard of those projects in the early 1960s. Schweppe said he was called on from time to time to translate correspondence in German, which correspondence had been photographed by some source not identified initially. Schweppe suggested that on later inquiry about the source of the correspondence he was informed it was either from "SAM" or "Z." He said he was unable to recall specifically who so advised him. He felt it was possible that word was just "passed along" to that effect. He could not recall whether each specific individual item was identified in a particular, special manner so as to tie it in to its source. Schweppe stated that he believes all such material translated by him was directed to officials at the Soviet and/or Soviet bloc embassies in Washington, D. C., and not to any non-diplomatic personnel. Such translation requirements were quite infrequent, and Schweppe was not called on to translate any such material within the past eight or ten years, to the best of his recollection.

Schweppe said it was his impression that "SAM" in New York City was handled in space at one or the other of New York's airports. He said he was unaware of the specific arrangements in Washington, D. C. He related that he was aware that FBI Special Agent John De Bettencourt, since deceased, was directly involved in WFO's "Z Coverage" project but that he did not know specifically to whom De Bettencourt was answerable.

U.S. SSC ON INTELLIGENCE ACTIVITIES

~~SECRET~~

Dick asked whether Schweppe was aware of any mail having been opened by FBI employees in situations other than the projects referred to above. Schweppe, after making the observation that Federal law and FBI regulations prohibit such activity, said he himself had never opened anyone's mail in his capacity as an FBI employee, that he never observed any other FBI employee so engaged, and that he personally was not aware of any specific instances in which that might have happened. At this point Schweppe related that while he was assigned to the Los Angeles Office, he suspected that a female employee, whose name he could not recall, might possibly have been engaged in the surreptitious opening of other people's mail because of the suspicious nature of her actions at certain times. Schweppe added that these were suspicions raised by circumstantial evidence only.

Dick then presented a hypothetical situation in which agents on duty might obtain mail posted by an individual and then proceed to open the same and review the contents. He asked whether Schweppe was aware of any such instances. Schweppe acknowledged that the suggested scenario sounded realistic enough but added that he could recall no such actual situations.

During the course of the interview, Schweppe indicated that he had been assigned to Soviet-related investigatory matters in WFO until early 1959, after which he was assigned to the handling of German, Latin American, Middle East, and Chinese investigatory matters at different times.

Schweppe concluded by stating that his knowledge and recollection of the subject matter constituting the basis for the inquiry were weak. He reiterated that he never opened any other person's mail in his capacity as an FBI employee, that he never witnessed any other FBI employee opening any such mail, and that he cannot recall ever being aware of any situation in which mail was opened by FBI employees, exclusive of the "SAM" and "Z" projects mentioned above.

This interview commenced about 10:15 a.m., September 23, 1975, and concluded at about 11:15 p.m. the same day.

For your further information, it appears from a review of FBI files that of the original 11 areas of inquiry contained in the July 20, 1973, Ruckelshaus memorandum, supra, only eight responses were delivered to the U. S. Department of Justice and that the remaining three responses regarding inquiries numbered two, eight, and 10, were never submitted to the Department. The material being furnished with this memorandum, however, includes responses to all 11 areas of the Ruckelshaus inquiry including those not previously furnished to the Department.

Re: Series of Studies Prepared at the Request
of Former Deputy Attorney General
William D. Ruckelshaus

With respect to inquiry number three of the Ruckelshaus memorandum, two items included in the original response to the Department, viz., Section 87 of the Manual of Instructions, and the study prepared in August, 1972, for former Acting Director L. Patrick Gray III, i.e., the Position Paper prepared by former FBI Section Chief Thomas J. Smith captioned "Domestic Intelligence Division-Scope of FBI Authority, Jurisdiction, and Responsibilities In Domestic Intelligence Investigations," have not been included in the material furnished herewith since both items were previously furnished to the SSC in response to earlier and separate requests.

1 - The Attorney General

NOTE:

Copies of those studies previously furnished to the Department were readily located in appropriate files. However, review of numerous logical files failed to locate any serials revealing a response to the Department relative to inquiries two, eight, and 10 of the 7/20/73 Ruckelshaus memorandum. By memorandum from O. T. Jacobson to Mr. Callahan, 7/5/74, (almost one year later) regarding the status of responses to the Ruckelshaus inquiry, it was noted that response to questions two, eight, and 10, while completed and ready for the Department, had not been furnished to the Department. The memorandum is apparently consistent with another earlier memorandum to W. R. Wannall from T. J. Smith dated 12/14/73, regarding this matter wherein it was suggested that prior to completing any studies which had been ordered by Richardson (former AG) and Ruckelshaus, we should wait for Mr. Saxbe to take office as AG. This memorandum also contained Director's notation "No need to do anything further at this point."

Material prepared in response to questions two, eight, and 10 was located in the IS-3 Section, INTD, and is being included in material furnished to SSC since such material appears to be covered by the SSC request.

AND MR. GEORGE B. BOWLES**

Reference is made to the letter of the SSC dated October 7, 1975, requesting delivery of FBI material pertaining to reasons for the FBI's investigative interest in Mr. George B. Bowles and Mr. Leon Letwin.

A thorough review of FBI files fails to disclose any material which indicates the FBI had an investigative interest in Mr. Bowles.

In accordance with this request, a memorandum, appropriately excised, captioned "Leon Letwin," dated May 26, 1964, which sets forth reasons for the FBI's investigative interest in Mr. Letwin is being delivered with this memorandum.

Reference is made to a letter dated September 29, 1975, to the Attorney General from Senator Frank Church, Chairman of the SSC. In paragraph one of this communication Senator Church indicated an interest in the manner in which FBI name checks were handled. Enclosed is the original of a memorandum which responds to this request. Also enclosed is a copy of the responding memorandum for your records.

It is noted that referenced communication also included a request for certain information concerning surreptitious entries for the purpose of installing electronic surveillance equipment. This inquiry is being responded to by separate communication.

**U. S. SENATE SELECT COMMITTEE TO
STUDY GOVERNMENTAL OPERATIONS WITH
RESPECT TO INTELLIGENCE ACTIVITIES (SSC)**

Reference is made to letter dated September 29, 1975, to the Attorney General from Senator Frank Church, Chairman, SSC. In the first paragraph of this communication Senator Church addressed the question of name check procedures within the FBI. Specific advice was sought concerning what information would be provided to a Federal agency submitting a name check by the FBI and also what information would be provided to that agency if the FBI conducted a background investigation on that individual.

The basic rule followed for dissemination of information in FBI files by the Name Check Section, General Investigative Division, is that only the results of FBI investigations are disseminated. In addition, however, information received from sources and informants who have provided reliable information in the past, pertinent public source information and information volunteered or obtained during investigation of other matters is also disseminated. Rumor or gossip, which is found in FBI files, is not disseminated unless it is considered pertinent to the inquiry. When such rumor or gossip is considered pertinent and is disseminated, the nature of the source of the information is described so that the receiving agency can place the information in its proper perspective. The receiving agency is also advised that this information was never verified by FBI investigation.

Attorney General Edward H. Levi
 Department of Justice
 Washington, D.C. 20530

Dear Mr. Levi:

At the close of his testimony on September 25, Mr. Charles Brennan, former Chief of Domestic Intelligence Division, indicated that he could not answer a question posed to him by me. The question relates to the status of a so-called "closed" FBI Domestic Intelligence case file. Suppose that the individual who is subject of the file is a member of the military service or applies for employment with a federal government agency, and the agency requests an FBI name check. What information would be provided to the federal agency by the FBI as the result of that name check? What information would be provided to that agency if the FBI conducted a background investigation on that individual?

With respect to surreptitious entries for the purpose of installing electronic surveillance equipment, which are referred to on page three of the September 24, 1975 letter from Michael E. Shaheen, Jr., to myself, I would appreciate answers to the following additional questions:

1. What has been the number of such entries for each year since 1960?
2. What has been the number of separate targets for each year since 1960?
3. What has been the total number of separate targets since 1960?

I would also request access, under agreed upon procedures, to a list of such targets, and the dates of the entries.

Sincerely,

Frank Church

Enclosed are eight copies of an LHM dated as above and captioned "U.S. Senate Select Committee on Intelligence Activities (SSC)" and "Re: Interview of FBI Special Agent HOMER W. SCHWEPPE by SSC Staff Member JAMES DICK."

The following background information is being supplied in connection with the enclosed LHM:

SA SCHWEPPE, at the express direction of SA PAUL DALY, FBIHQ, presented himself for interview at 10:00 a.m. on 9/23/75, to SSC Staff Member JAMES DICK in Room 308, Dirksen Senate Office Building, Washington, D. C. (WDC). At about 10:00 a.m. DICK and staff stenotypist SUSAN HANBACK repaired to a sixth floor room in the former Carroll Arms Hotel. DICK had a key for this room, which appeared to have been used before, possibly for similar interview purposes, inasmuch as there was a supply of stenotype paper on hand.

DICK was friendly and affable but businesslike throughout the interview. In a brief initial off-the-record exchange, DICK explained that he was interested in SCHWEPPE's knowledge of the "Hunter Project." When SCHWEPPE indicated he was not familiar with the term, DICK consulted his notes to confirm whether SCHWEPPE in fact was the party he intended to interview. A check by him corroborated that SCHWEPPE's name had been provided him by the Department of Justice as an individual with knowledge of "Hunter" and related projects.

[During this initial exchange, SCHWEPPE indicated that his recollection of specifics such as "exactly when?" and "Did you ever see?" or "When did you first see or learn?" or "How many times did you see?" based on material possibly seen by him over a period of several months as far back as 1958 was limited. DICK agreed and suggested that there really might be no need to continue the interview, but in the end he suggested that since all parties were in place, the interrogation might as well proceed.]

He indicated that a transcript of the interview would be available for review by SCHWEPPE in about a week. DICK said he would contact SA DALY at FBIHQ at the appropriate time. On contact on 9/30/75, DICK said the transcript probably would be available for review in about a week. As of 10/15/75, it had not been made available.

UNITED STATES SENATE SELECT COMMITTEE ON
INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FEDERAL BUREAU OF INVESTIGATION
(FBI) SPECIAL AGENT HOMER W. SCHWEPPE BY
SSC STAFF MEMBER JAMES DICK

On September 23, 1975, after a short orientation discussion and after advising him of his rights under the Constitution and reminding him that his appearance was voluntary, SSC Staff Member James Dick interviewed FBI Special Agent Homer W. Schweppe in the presence of SSC stenotypist Susan Hanback regarding his knowledge of the following: The "Hunter Project," "Bureau Informant 200," "the SAM Survey," "Z Coverage," and opening of mail by FBI employees.

At the outset Dick asked Schweppe to document his FBI service. Schweppe responded by listing the following: Assignments in San Francisco from late 1946 to mid-1947; in Los Angeles from mid-1947 to mid-1951; at FBI Headquarters (FBIHQ) from May, 1951, to May, 1958, and again from late 1960 to November, 1961; in the Washington Field Office (WFO) of the FBI from May, 1958, on, except for the 1960 to 1961 period just cited.

During the course of the interview Schweppe was also asked to indicate the nature of his assignments at FBIHQ. He indicated he was assigned for the main part to units within the Domestic Intelligence Division dealing with Soviet military attache personnel and with members of Elizabeth Bentley's "espionage ring."

Dick's initial inquiry was directed to the extent of Schweppe's knowledge of the [redacted]. When Schweppe conceded he was not familiar with the term, Dick offered as an exhibit for review a copy of a February 6, 1958, memorandum directed to Director Hoover entitled [redacted]. This memorandum outlined arrangements to be effected between the FBI and the Central Intelligence Agency [redacted] regarding the manner in which the FBI would be provided the results of [redacted].

On review of the document, Schweppe stated he was certain he had never seen that memo, but he acknowledged that on the basis of the memo he had a recollection about such activity by the [redacted]. Schweppe recalled that at some point prior to his transfer from FBIHQ in May, 1958, and he indicated he felt it must have been earlier than the February 8, 1958, date indicated above, he had pass across his desk in the normal flow of official mail what he referred to as the modern day version of computer printout lists consisting, to the best of his recollection, of names of what were presumed to be Soviet residents as well as addresses in the Soviet Union. Schweppe indicated that he had seen several such lists but since they did not seem applicable to the type of cases being supervised by Schweppe at the time, he paid them little heed. He recalled that at least with some of the later printouts there were instructions accompanying the printouts to the effect that names and/or addresses of interest should be flagged for what was presumed to be a "watch list" of some sort.

Dick asked specifically when Schweppe first became aware of the lists mentioned above; whether he was familiar with FBI Form 5-88, a form prepared for placing a request on the "watch list"; whether he had seen any of the results of the [redacted] and whether he had seen any reproduction of correspondence photographed by [redacted] in connection with the [redacted].

U.S. SSC ON INTELLIGENCE ACTIVITIES

SECRET

Schweppe replied that he thought the lists he mentioned earlier probably were seen by him before February, 1958, but he acknowledged he could not recall exactly when. He said he could not now recall ever having seen FBI Form 5-88. He replied that, since he felt he had never placed a name or address on the "watch list," he would not have any specific results routed to his personal attention. He added, however, that if the results were routed to all supervisors concerned with Soviet intelligence and related matters, he probably did see such results and routinely initialed the accompanying routing slips. He said he could recall no specific [redacted] results" if, in fact, he did see anything specific.

Dick asked whether Schweppe was aware of who designated the routing of the lists he had seen, and Schweppe responded that he assumed it was some individual in the office of the division's Assistant Director who performed such an administrative function. Schweppe said he did not recall a Miss Triplett (phonetic), who, according to Dick, was responsible for routing the "Hunter Project" material to appropriate supervisors. Schweppe said he could have been included in such routing because of his assignment.

Dick then queried Schweppe on his familiarity with the term "Bureau Informant 200" (BI 200), when he first became aware of the term, and whether he ever saw any of the material attributed to that informant. In this connection Dick exhibited another FBIHQ memo dated February 6, 1958, which referred to BI 200 as the designation used by FBIHQ to forward to its field offices information received from [redacted] under the [redacted]. Schweppe was unable to recall exactly when he first became aware of the use and identity of BI 200, but he assumed it was in early 1958. He said he could recall seeing information attributed to BI 200 both while at FBIHQ and in WFO but that he could no longer recall the specific nature of the items involved. He said he presumed that all of them dealt with Soviet-related investigatory matters. Schweppe said he did not believe he has seen any references to BI 200 in the past 15 years or so and that he may have seen as many as five references a year before that.

Dick also queried Schweppe about his knowledge of the "SAM Survey" (SAM) and "Z Coverage" (Z). He asked Schweppe whether he knew when "SAM" and "Z" were initiated, what they consisted of, when they ceased, when he first became aware of them, and whether he had seen any results of those projects. Schweppe replied that "SAM" and "Z" were on a need-to-know basis within WFO but that he in time heard about them through office "shop talk" and then concluded that those designations indicated projects in which mail to and/or from the Soviet Union and Soviet bloc countries was monitored. He said he did not know when those projects were initiated or when they terminated. He said that he would have to guess within a tolerance of two or three years that he first heard of those projects in the early 1960s. Schweppe said he was called on from time to time to translate correspondence in German, which correspondence had been photographed by some source not identified initially. Schweppe suggested that on later inquiry about the source of the correspondence he was informed it was either from "SAM" or "Z." He said he was unable to recall specifically who so advised him. He felt it was possible that word was just "passed along" to that effect. He could not recall whether each specific individual item was identified in a particular, special manner so as to tie it in to its source. Schweppe stated that he believes all such material translated by him was directed to officials at the Soviet and/or Soviet bloc embassies in Washington, D. C., and not to any non-diplomatic personnel. Such translation requirements were quite infrequent, and Schweppe was not called on to translate any such material within the past eight or ten years, to the best of his recollection.

Schweppe said it was his impression that "SAM" in New York City was handled in space at one or the other of New York's airports. He said he was unaware of the specific arrangements in Washington, D. C. He related that he was aware that FBI Special Agent John De Bettencourt, since deceased, was directly involved in WFO's "Z Coverage" project but that he did not know specifically to whom De Bettencourt was answerable.

Dick asked whether Schweppe was aware of any mail having been opened by FBI employees in situations other than the projects referred to above. Schweppe, after making the observation that Federal law and FBI regulations prohibit such activity, said he himself had never opened anyone's mail in his capacity as an FBI employee, that he never observed any other FBI employee so engaged, and that he personally was not aware of any specific instances in which that might have happened. At this point Schweppe related that while he was assigned to the Los Angeles Office, he suspected that a female employee, whose name he could not recall, might possibly have been engaged in the surreptitious opening of other people's mail because of the suspicious nature of her actions at certain times. Schweppe added that these were suspicions raised by circumstantial evidence only.

Dick then presented a hypothetical situation in which agents on duty might obtain mail posted by an individual and then proceed to open the same and review the contents. He asked whether Schweppe was aware of any such instances. Schweppe acknowledged that the suggested scenario sounded realistic enough but added that he could recall no such actual situations.

During the course of the interview, Schweppe indicated that he had been assigned to Soviet-related investigatory matters in WFO until early 1959, after which he was assigned to the handling of German, Latin American, Middle East, and Chinese investigatory matters at different times.

Schweppe concluded by stating that his knowledge and recollection of the subject matter constituting the basis for the inquiry were weak. He reiterated that he never opened any other person's mail in his capacity as an FBI employee, that he never witnessed any other FBI employee opening any such mail, and that he cannot recall ever being aware of any situation in which mail was opened by FBI employees, exclusive of the "SAM" and "Z" projects mentioned above.

This interview commenced about 10:15 a.m., September 23, 1975, and concluded at about 11:15 p.m. the same day.

Director Clarence M. Kelley
 Federal Bureau of Investigation
 Washington, D. C.

Dear Mr. Kelley:

At this time when the Senate Select Committee hearings are beginning, I wanted to share with you some of my personal thoughts.

First of all, may I express my deepest sympathies upon the passing of Mrs. Kelley.

On my own behalf and as a representative of the Committee, I also want to thank all the officials and agents of the FBI who have been so very helpful in the Committee's work over the past months. I hesitate to mention names, but we especially appreciate the time and effort put in by Mr. Bill Cregar, Mr. Elmer Larsen, and Mr. Paul Daly. There is still a way to go before we are done, especially in thinking through questions of possible legislation. But we have made a start.

I have tried to do all I can to insure a fair and bi-partisan approach to this inquiry. It is by no means perfect. Some aspects inevitably get exaggerated for purposes of presentation. But the important thing is to get the Congressional process moving. There may still be some tensions between the Committee and FBI representatives on one problem or another. Nevertheless, I want you to understand that the Chairman and Vice-Chairman are deeply interested in achieving our basic legislative goal of clarifying FBI responsibilities.

AN ANALYSIS OF FBI DOMESTIC SECURITY
INTELLIGENCE INVESTIGATIONS: AUTHORITY,
OFFICIAL ATTITUDES, AND ACTIVITIES IN HISTORIC PERSPECTIVE:
A SYNOPSIS

Many persons who are currently examining the FBI's domestic security intelligence authority and the parameters of this jurisdiction begin their analysis at a mid-point in the history of this Nation's struggle against the force of subversion. This approach tends to result in a mechanical examination of the subject without the benefit of an understanding of the historical forces and necessities which brought about the need to conduct domestic security intelligence investigations. In an effort to clarify the role the FBI has played in this field, it is deemed appropriate to submit this concise review of historic events illustrating the evolution of the problem of domestic subversion, attitudes of Government officials towards the problem, and how, against this historic backdrop, the FBI, came to be assigned domestic security intelligence responsibilities.

Many today assume incorrectly that the FBI commenced domestic security intelligence investigations within the last several years. In fact, the Bureau of Investigation, the predecessor of the modern FBI, was given foreign and domestic security responsibilities during World War I (WWI), 1917-1918.

In 1917, Congress enacted the Selective Service and Training Act, the Espionage Act, and the Trading with the Enemy Act, followed in 1918, by the Sabotage and Deportation Acts. Enforcement responsibilities for the most part fell on the Bureau of Investigation.

During World War I there was at all times an enormous overlapping of investigative activities among the various agencies charged with the winning of the war. There were probably seven or eight such active organizations operating at full force during war days and it was not an uncommon experience for an Agent of this Bureau to call upon an individual in the course of his investigation, to find out that six or seven other Government agents representing as many other investigative agencies had been around to interview the party about the same matter.

In an effort to counter the radicals and anarchists, the Department and Bureau, in conjunction with the Department of Labor, which had primary jurisdiction over immigration matters, used the provisions of the "Deportation Statute" as an answer.

In 1919, J. Edgar Hoover, a Departmental Attorney since 1917, was placed in charge of the General Intelligence Division, Department of Justice. The Division had the responsibility of correlating information obtained by the Bureau for the purpose of preparing material for deportation proceedings. As a Departmental Attorney, Mr. Hoover not only observed the wartime problems but experienced the difficulties associated with intelligence-type investigations while with the Division.

On October 5, 1920, he prepared a report on the General Intelligence Division and stated very clearly that information which the Bureau was collecting was being used by the General Intelligence Division of the Department of Justice as pure and valuable intelligence information to assess internal domestic radical activity as early as 1919.

In 1924, Harlan Fiske Stone was appointed Attorney General of the United States, and his concept as to the Bureau's role was quite clear:

"The Bureau of Investigation is not concerned with political or other opinions of individuals. It is concerned only with such conduct as is forbidden by the laws of the United States. When a police system goes beyond these limits it is dangerous to the proper administration of justice and to human liberty...."

J. Edgar Hoover, who was appointed Director of the Bureau of Investigation by Attorney General Stone in 1924, followed this policy from its inception.

To complete the picture of official FBI policy and attitude regarding investigation of radical activities during the 1920's and early 1930's, it must be noted that intelligence-type investigations were conducted on a very limited basis and for specific purposes when requested by the Attorney General and Secretary of State under the provisions of the Appropriations Act, 28 U.S.C. 533(3).

Though the Departmental and Bureau policy from 1924 to 1934 was to not engage in general domestic security intelligence investigations, the communist-anarchist problem was ever present and of great concern to the public, the Executive, and Congress. The "red radicals" and anarchists were no longer alone in the field, however, for in the early 1930's, National Socialism, the Nazi party ideology of Adolf Hitler, grew to power in Germany and anti-Semitic, anti-racial propoganda was being peddled by Nazi operatives, aliens and pro-German Americans in the United States.

On May 8, 1934, Mr. Hoover appeared at a conference at The White House attended by President Franklin D. Roosevelt, the Attorney General, the Secretary of the Treasury, the Secretary of Labor, and the Chief of the Secret Service. The topic of concern was the Nazi movement in the United States. As a result of the conference, Hoover recorded on May 10, 1934:

"...it is desired that a very careful and searching investigation be made of this movement, with particular attention to be given to activities indicating that either the German Embassy or the German Consulates throughout the United States may have connection with this movement.

"The investigation should be considered as a so-called intelligence investigation, that is to say, the reports should be prepared in one general summary at specified intervals in order that the Attorney General may have them made available, and in turn make them available to the President."

It is readily recognized that this Presidential instruction was not a sweeping and general assignment to conduct domestic security intelligence investigations, but rather to conduct an intelligence investigation within specified guidelines. Nonetheless, here, based upon a Presidential Directive, the Bureau departed from past statutory policy and immediately initiated an intelligence investigation, which by necessity, involved aliens and United States citizens and was conducted for the primary purpose of informing the Attorney General and the President as to the general activities of the movement.

This investigation of the Nazi movement, conducted along the specified guidelines set by the President, was not expanded to include investigation of such communist or radical movements whose purpose it was to overthrow the Government. In a memorandum dated October 9, 1935, for the Acting Attorney General, the Director noted in his response to a State Department inquiry as to the feasibility of exchanging radical information with foreign police sources:

"At the present time the investigative activity of this Bureau is restricted, in matters of this kind (communist and radical matters) to those activities which constitute a violation of some Federal statute.

"Very little information is obtained by this Bureau relating to the activities of these radical organizations, which advocate the overthrow of the United States Government. It follows, of course, that information of this kind is of no value when existing laws do not permit a prosecution of the persons engaged in advocating the overthrow of the Government. I will, however, be glad to receive at any time, information from any foreign police department, which pertains to organizations established for the purpose of attempting to overthrow this Government, and will in the event the Bureau can take no action upon the information furnished transmit the information to those Governmental agencies who may be interested in the material obtained."

On August 24, 1936, Director Hoover, representing the Department in the Attorney General's absence, was summoned to The White House by President Roosevelt. As reflected in two memoranda by Mr. Hoover, dated August 24 and August 25, 1936, the President "was desirous of discussing the question of the subversive activities in the United States, particularly Fascism and Communism." Hoover recorded that the President stated he had been concerned about the communist and fascist movements and "what he was interested in was obtaining a broad picture of the general movement and its activities as may affect the economic and political life of the country as a whole."

The President inquired what suggestions Hoover might offer relative to this matter. Hoover recorded that he responded to the President as follows:

"I told him that the appropriation of the Federal Bureau of Investigation contains a provision that it might investigate any matters referred to it by the Department of State and that if the State Department should ask for us to conduct such an investigation we could do so under our present authority in the appropriation already granted." (Emphasis Added)

On careful reading, and examination in light of the historic setting, it is apparent that the President and Hoover were talking about money, not jurisdictional limits. The President wanted a broad intelligence investigation conducted not for purposes of prosecution and inquired of Hoover if the FBI could supply the product. Hoover responded by informing the President that money had been appropriated by Congress under the Appropriations Act and to activate the provisions for justifiably using the funds would require a request from the Secretary of State. The FBI could, of course, conduct no investigations for which Congress had not provided appropriations. The final topic discussed at the August 24, 1936, meeting was the President's desire that Hoover coordinate the investigation with the "Military and Naval Intelligence Services."

The entry of the Bureau into the new field of domestic security intelligence investigations necessitated the creation of administrative procedures to handle the incoming information. By memorandum dated August 28, 1936, an assistant submitted a tentative outline for the manner in which it was recommended information concerning subversive activities be maintained at Headquarters. He outlined the following "general classifications": Maritime Industry, Government affairs, steel industry, coal industry, newspaper field, clothing, garment and fur industry, general strike activities, Armed Forces, educational institutions, general activities--Communist and Affiliated Organizations, Fascisti, Anti-Fascisti movements, and activities in Organized Labor organizations. Mr. Hoover noted on the memorandum that this was a good beginning.

By letter of October 20, 1938, Attorney General Homer Cummings forwarded to the President a memorandum from Director Hoover wherein Hoover outlined for the President the general scope of the FBI intelligence effort and the areas of coverage being afforded.

"In order that there may be a clear view of the detailed information covered, there is set forth the following break-up of the various subjects that appear in the files of the Intelligence Section; Maritime; government; industry (steel, automobile, coal mining, and miscellaneous); general strike; armed forces; educational institutions; Fascisti; Nazi; organized labor; Negroes, youth; strikes; newspaper field; and miscellaneous. Any information of a subversive or general intelligence character pertaining to any of the above is received at the FBI headquarters at the Seat of Government and is reviewed, summarized, and placed upon editorial cards which are filed by name of the subject matter, as well as by name of the individual, so that it is entirely possible to find in the index the collection of names of individuals engaged in any particular activity, either in any section of the country or in a particular industry or movement. Indicative of the present size of this index, there are approximately 2,500 names now in the index of the various types of individuals engaged in activities of Communism, Nazism, and various types of foreign espionage." (Emphasis Added)

Additional legislation was apparently not deemed necessary by officials of the Department and the Bureau.

Attorney General Homer Cummings (1938):
"No additional legislation to accomplish the general objectives seems to be required."

Former Director J. Edgar Hoover (1938):
"Such expansion in the FBI as may be desired and may become necessary can be covered, it is

believed, under present provisions existing in the annual appropriations bill of the Federal Bureau of Investigation,.... Under this provision investigations have been conducted in years past for the State Department of matters which do not in themselves constitute a specific violation of a Federal Criminal Statute, such as subversive activities. Consequently, this provision is believed to be sufficiently broad to cover any expansion of the present intelligence and counterespionage work which it may be deemed necessary to carry on."

Recommendations of Departmental and Bureau officials in considering the necessity for the issuance of a Presidential directive (1939):

"Formal order on the part of the President would hardly be needed to accomplish this result" (centralization of investigative responsibility.) "All that would be required from him would be a letter to each department head."

President Roosevelt, on November 2, 1938, personally advised the former Director that he approved of Hoover's plan, thus confirming that there was a meeting of the minds among the primary participants.

The world situation steadily worsened during the 1930's. Amid this chaotic world situation the United States attempted to stand neutral; nevertheless, the danger of potential espionage, sabotage, and subversion was of paramount concern.

Various Federal investigative agencies commenced uncoordinated and decentralized investigation of reports of subversion. Some even prompted local citizens' groups to assist their efforts, much reminiscent of the American Protective League and various ad hoc groups formed for the same purpose during World War I. In response to this growing problem, the Bureau recommended remedial action through the Attorney General which resulted in a letter dated February 7, 1939, being directed to various Federal department heads from Joseph B. Keenan, Assistant to the Attorney General, which stated in part:

"I take pleasure in informing you that in cooperation with the Military Intelligence Division of the War Department, the Federal Bureau of Investigation of the Department of Justice has undertaken to investigate matters relating to espionage and subversive activities.

"In order that such matters be handled expeditiously, it will be appreciated if you will instruct your personnel that in case any information is received concerning the above-mentioned matters such information should be promptly forwarded to the nearest field office of the Federal Bureau of Investigation."

Here was a direct effort of the Department and the FBI to prevent the confusion, delays, and violation of personal rights incident to such investigations during the previous war.

Nevertheless, the letter of February 7, 1939, was virtually ignored by other agencies, and a cumbersome committee system, under the direction of the Undersecretary of State, was inaugurated. The committee was composed of representatives of the War, Navy, Treasury, Post Office, and Justice Departments, in addition to the State Department, whose function it was to receive information of a subversive nature, make an analysis, and then forward the matter to the agency deemed most suited to handle the investigation. The bulk of the matters were referred to the FBI and the military and naval intelligence services. The previous arrangement, based on the President's desires of 1936, was completely ignored, causing a waste of prior efforts and accumulated information, delays in referral of cases, and general confusion.

The Department and Bureau prepared a memorandum dated June 5, 1939, containing ideas and recommendations to be presented to the President in an effort to resolve the controversy.

"For the reasons outlined above it is recommended that the definite steps be taken-- first, that the interdepartmental committee described in the first paragraph of this memorandum be abandoned and that in its place the investigation of all espionage, counter-espionage and sabotage cases be controlled in the Intelligence Divisions of the War and Navy Departments

and the Federal Bureau of Investigation and that the directors of these three agencies function in the capacity of a committee to coordinate the activities of the three agencies named. Second, that confidential instructions should be issued by the President to the heads of all government departments except War, Navy, and Justice, instructing that absolutely no investigations shall be conducted by the investigative agencies of those departments into cases involving actually or potentially espionage, counter-espionage or sabotage. The heads of all government departments should be instructed in this order to refer immediately through existing channels direct to the nearest office of the Federal Bureau of Investigation any data, information or material pertaining to cases of this type. Formal order on the part of the President would hardly be needed in order to accomplish this result. All that would be required from him would be a letter to each department head."

This recommended procedure, concurred in by President Roosevelt, resulted in the confidential Presidential Directive of June 26, 1939, which reads:

"It is my desire that the investigation of all espionage, counterespionage, and sabotage matters be controlled and handled by the Federal Bureau of Investigation of the Department of Justice the Military Intelligence Division of the War Department, and the Office of Naval Intelligence of the Navy Department. The directors of these three agencies are to function as a committee to coordinate their activities.

"No investigations should be conducted by any investigative agency of the Government into matters involving actually or potentially any espionage, counterespionage, or sabotage, except by the three agencies mentioned above.

"I shall be glad if you will instruct the heads of all other investigative agencies than the three named, to refer immediately to the

nearest office of the Federal Bureau of Investigation any data, information, or material that may come to their notice bearing directly or indirectly on espionage, counterespionage, or sabotage."

The overall problem was not, however, totally resolved with the Directive of June 26, 1939. Reports were frequently received in Washington indicating that various local police authorities were forming "sabotage squads" and the like and, therefore, further clarification was deemed necessary.

The Department and FBI again went to the President to resolve the question.

At 6:20 p.m. on September 6, 1939, the Attorney General reached Mr. E. A. Tamm, Assistant Director, and advised him as is reflected in Mr. Tamm's memorandum dated September 6, 1939.

"The Attorney General called and stated that the President issued the order today. He stated it reads, in part, as follows:

"President Roosevelt today requested all local law enforcement officers to cooperate with the FBI in the drive against espionage, sabotage, subversive activities, and violation of the neutrality laws. Mr. Roosevelt issued a formal statement requesting all police officers, sheriffs, and other law enforcement officers to transmit to the G-Men all information bearing on such cases. This task must be conducted in a comprehensive and effective manner on a national basis and all information must be carefully sifted out and co-related in order to avoid confusion and irresponsibility. To this end I request all police officers, sheriffs, and all other law enforcement officers in the United States promptly to turn over to the nearest representative of the Federal Bureau of Investigation any information obtained by them relating to espionage, counter-espionage, sabotage, subversive activities, and violation of the neutrality laws."

The Presidential Directives of June 26 and September 6, 1939, were apparently not issued for the sole purpose of fully describing the scope of FBI domestic and foreign security intelligence investigative jurisdiction, but rather were issued to place and finalize investigative authority in the FBI and the military intelligence services over those areas of jurisdiction where conflicts were developing. It should be noted, however, the subject matter of the President's instructions regarding domestic security intelligence investigations of 1936, as reaffirmed in 1938, is also addressed in the Directive of September 6, 1939, thus tending to confirm the President's intent that the FBI and military services handle all matters relating to foreign and domestic security intelligence investigations. To coordinate their efforts, the FBI and the military intelligence services formed the Interdepartmental Intelligence Conference (IIC).

The manner in which the FBI and the military intelligence services delineated their respective responsibilities is reflected in a series of Delimitations Agreements of June 5, 1940, February 9, 1942, and February 23, 1949. Each of these Delimitations Agreements generally cites in the preamble that in conformity with the Presidential Directive of June 26, 1939, as augmented by the Directive of September 6, 1939, investigation of all "espionage, counterespionage, sabotage, and subversive activities (or subversion) will be delimited" as therein described.

The Delimitations Agreements of 1940, 1942, and 1949, stated that the FBI shall investigate those matters involving citizens and foreign nationals or foreign-directed activity in certain geographic areas, including the United States, and, among other duties, shall advise the military of "cases of actual or strongly presumptive espionage or sabotage, including the names of individuals definitely known to be connected with subversive activities" (1940 and 1942) or "developments concerning the strength, composition, and intentions of civilian groups within its cognizance which are classed as subversive and whose activities are a potential danger to the security of the United States" (1949).

The IIC as an independent committee ceased to exist as, pursuant to the National Security Act of 1947, which formed the National Security Council (NSC), it was absorbed and chartered by the NSC, presided over by the President. The IIC charter issued by NSC dated July 18, 1949, reads in part:

"Pursuant to the provisions of Section 101 of the National Security Act and NSC 17/4 as approved by the President, the National Security Council hereby authorizes and directs that the Interdepartmental Intelligence Conference effect the coordination of all investigation of domestic espionage, counterespionage, sabotage, subversion, and other related intelligence matters affecting internal security.

"(1) The Interdepartmental Intelligence Conference shall be constituted as set forth in the Presidential Directive of June 26, 1939, that is, the Director of the Federal Bureau of Investigation, the Director of the Intelligence Division of the Army, the Director of Naval Intelligence, and in addition, the Director, Office of Special Investigations, U. S. Air Force, which office has been created since the issuance of the original Presidential Directive.

"D. Nothing herein shall be construed as modifying or affecting the Presidential Directives issued to the members of the IIC relating to their individual responsibilities and duties. The Delimitations Agreement among the members of the IIC relating to the investigative responsibilities and duties of the individual members and other agreements among these members relating to the same matters shall remain in full force and effect and shall continue to be amended, changed, and supplemented at the discretion of the IIC."

Thus, it was reaffirmed on Presidential authority through the charter of the IIC that the Presidential Directive of June 26, 1939, as mentioned in the charter and the Delimitations Agreement, and the Directive of September 6, 1939, as contained in the Delimitations Agreement, were not to be modified or affected and, through the agreement, were to remain in full force and effect.

The Presidential intent has also been manifested and reaffirmed through the issuance of subsequent Directives by President Roosevelt on January 8, 1943, President Truman on July 24, 1950, and President Eisenhower on December 15, 1953.

Such reissuances appear to occur to reinforce and remind interested parties of this intent during times of national peril--1943, during the height of WW II; 1950, during the Korean conflict; and 1953, during the Cold War era and enactment of the Atomic Energy Act.

On June 9, 1962, President John F. Kennedy executed National Security Action Memorandum 161, wherein he stated in part:

"2. Accordingly, I have directed that the two interdepartmental committees concerned with internal security--the Interdepartmental Intelligence Conference (IIC) and the Interdepartmental Committee on Internal Security (ICIS)--which have been under the supervision of the National Security Council, will be transferred to the supervision of the Attorney General. The continuing need for these committees and their relationship to the Attorney General will be matters for the Attorney General to determine."

On March 5, 1964, the Attorney General directed a charter to the IIC which is identical to the charter issued by the NSC in 1949, save for the issuing authority being the Attorney General in place of the NSC. Since that time, the FBI has operated in the field of foreign counterintelligence and domestic security investigations under the overall supervision of the Attorney General.

In addition to the reaffirmation of the Presidential intent, the Attorney General has codified his instructions that the FBI handle such matters in 28 CFR, Section 0.85(d):

"Carry out the Presidential directive of September 6, 1939, as reaffirmed by Presidential directives of January 8, 1943, July 24, 1950, and December 15, 1953, designating the (FBI) to take charge of investigative work in matters relating to espionage, sabotage, subversive activities, and related matters."

The FBI, in addition, is responsible for the investigation of numerous Federal statutory violations, many inherently addressing the field of domestic subversion and extremist activities, as well as for retaining material and conducting such investigations as are necessary and proper under the Federal Employee Loyalty Program.

As has been illustrated, the FBI, since World War I, has been the recognized Federal agency to conduct investigations of a national security nature, and, since 1936, has been authorized to engage in domestic security intelligence investigations through a series of Presidential Directives, as reaffirmed, Executive Branch charters, and through the parallel interest generated in the duty to investigate statutory violations in the field.

Honorable Richard S. Schweiker

Dear Senator Schweiker:

At the hearing before the Select Committee on Intelligence Activities, you asked me to comment on a specific provision from the FBI Manual of Rules and Regulations. As I told you at the hearing, through some misunderstanding, I had not seen that provision until almost immediately before the afternoon session of the Committee began and indeed while I was at the witness table. I did not have an opportunity to check the specific provision or to know about its origin. My statement that I was sure it did not represent present policy represented my firm belief.

I note that according to the press reports that a Bureau spokesman later in the day informed a reporter that the statement is still in the manual and that it does represent Bureau policy. I am writing this letter to you, with a copy to Senator Church, because I would not wish to mislead the Select Committee in any way.

I do believe, however, some further explanation is in order. First, the Bureau informs me that the provision has not been interpreted to mean that an investigation should not take place and that "any interpretation that an investigation would not be instituted because of the possibility of embarrassment to the Bureau was never intended and, in fact, has never been the policy of this Bureau." I am told that "what was intended to be conveyed was that in such eventuality FBI Headquarters desired to be advised of the matter before investigation is instituted so that Headquarters would be on notice and could direct the inquiry, if necessary."

SUBJECT: SENSTUDY 75

This informative memorandum, for record purposes, reports on conference 11/10/75 between Bureau and Senate Select Committee (SSC) personnel concerning informant matters.

Attached is a copy of an 11/7/75 letter, with attachment, which served as a basis for the conference which was requested by SSC Staff Member Bob Kelley. The letter covered three principal items: (1) a paper which the SSC invites us to prepare concerning informant matters, (2) a request for additional documents, and (3) a request to interview Agents who handled three former informants.

Present at the conference on behalf of the SSC Staff were Bob Kelley, Andy Postal, David Bushong and Jeffrey Kayden. Attendees at the conference for the Bureau were S. F. Phillips of the Senstudy 75 Project, Supervisors E. P. Grigalus (IS-2 Section) and H. A. Newman (IS-1 Section) of INTD, and T. L. Sheer of the General Investigative Division.

The following matters were discussed at the conference. In respect to paragraph 1, page 2, of the SSC 11/7/75 letter, Kelley acknowledged error in the letter in that the SSC is now requesting documents relating to only one, not two, of three former informants who are scheduled to testify. The former informant in question is Gary Thomas Rowe, Jr., and Newman is coordinating the document request relating to Rowe. The SSC representatives delineated the

Agents it desired to interview, principally those who had handled the three former informants during specified periods; and also indicated a desire to interview former SAC Roy Moore who supervised the Special in which former informant Hardy was involved. By separate correspondence we are handling the matter relating to release from confidentiality agreement of the pertinent personnel.

The conference also discussed details of the memorandum the SSC invited us to prepare, which memorandum would enable the Bureau to present to the SSC an overall view of our informant program. It was agreed at the conference that we will deal with our informant program in the domestic field and not any aspects relating to assets in the counterintelligence field. Unit Chief Grigalus was designated to coordinate and prepare the necessary memorandum with assistance and input from Newman and from the Criminal Informant Unit of the Special Investigative Division, whose assistance Grigalus will separately solicit.

 Special Counsel for Intelligence Coordination
 Office of the Deputy Attorney General

 Washington, D.C. 20530

Dear Mike:

As a follow-up to our briefing of Assistant Director Wannall on November 6 concerning our proposed format and witnesses for public hearings on December 4-5 on the FBI's use of intelligence informants and sources, we would like to make the following requests.

As discussed in our meeting with Mr. Wannall, we invite the Bureau to submit a memorandum on its intelligence informant and source program that could be inserted in the record of the testimony of Bureau representatives at the hearing. This memorandum would enable the Bureau to present to the Select Committee a complete description of its program and to discuss the issues of particular interest to the Committee members. These include, for example, 1) the size, scope and purpose of the program, including an assessment of the program's cost and effectiveness, and the distinctions and relationships between the intelligence informant program and the Bureau's criminal informant activity; 2) the criteria that determine when an informant may be used in an organization or group; and 3) the program's command and control system, including the limits that are placed on the activities of informants and the type of information an informant or source is permitted to report to his handling agent and the Bureau. In addition, the memorandum would discuss possible legislation in the informant area, such as the imposition of a warrant requirement or additional administrative review. To permit the Select Committee members to study this memorandum in advance of the hearing and to discuss it with FBI representatives during their testimony at the public hearing, we request that the memorandum be submitted by November 24.

**RE: DOCUMENTATION FOR INFORMATION
CONCERNING STANLEY DAVID LEVISON**

Reference is made to the letter, dated October 14, 1975, from Mr. John T. Elliff, Director, Domestic Intelligence Task Force of the SSC, with attachment, to Mr. Michael E. Shaheen, Jr., of the Office of the Deputy Attorney General.

Referenced letter and attachment sought from this Bureau certain documentation information relating to a characterization of Stanley David Levison, a former associate of Martin Luther King, Jr., the latter being the subject of SSC interest.

The attention of the SSC is invited to the highly sensitive oral briefing furnished to Senator Frank Church, Chairman of the SSC, and selected members of the SSC Staff by FBI personnel, with Mr. Shaheen and his Deputy present, on November 5, 1975.

The briefing afforded SSC personnel was intended, in part, to serve in lieu of any written information in response to the October 14, 1975, request. Therefore, this Bureau is taking no further action with respect to the request of reference.

RE: DOCUMENTATION FOR INFORMATION CONCERNING
STANLEY DAVID LEVISON

~~SECRET~~

NOTE:

The referenced request and attachment cited 14 communications, as examples, which the Bureau has furnished the SSC and which describes Levison as having been a secret member of the Communist Party (CP). The request was for supporting evidence in FBI files for what it calls FBI's "conclusionary statements" about Levison. We believe strongly that the special briefing given to Senator Church, et al., would serve in lieu of any written response to the request, and Mr. Shaheen so agreed in oral discussion with Supervisor S. F. Phillips of the Senstudy 75 Project on 11/7/75. Shaheen indicated he did not believe any further written information need be given to the SSC to serve as documentation for Levison's CP membership. Phillips suggested, and Shaheen agreed it was a good idea, to furnish the Committee an LIM along the lines we are now taking which will be on record with the SSC that the oral briefing was to serve in lieu of other response.

SUBJECT: SENSTUDY - 75

Reference memorandum from E. W. Walsh to Mr. Jenkins dated 11-6-75 captioned "Disciplinary Matters, Explanation Concerning Manual Provisions."

During public testimony by Attorney General Levi before the Senate Select Committee on Intelligence Activities on 11-6-75, Senator Richard Schweiker read a portion of the Rules and Regulations, Part I, Section 9, Item C, dealing with disciplinary matters. The Senator said the rule indicates that investigations will be halted because they might "embarrass the Bureau." Referenced memorandum enclosed a statement, prepared by the Administrative Division, explaining the Bureau's policy in such matters, which was to be included in the record of the hearings.

Mr. Hotis met with Senator Schweiker shortly after the hearings on the afternoon of 11-6-75 and requested that the Senator insert an explanation of our policy into the record. He told the Senator it was incorrect to suggest that the purpose of the rule was to terminate, or as the Senator put it "abort," an investigation that might prove to be embarrassing to the Bureau. He said the purpose of the rule is simply to insure that any incident or allegation that might discredit or undermine the public confidence in the Bureau should be brought promptly to the attention of Bureau Headquarters to insure that the matter is handled in an appropriate manner. Because of the controversy surrounding the phrase "embarrass the Bureau," however, we are revising the language of that provision so that it will more accurately convey our policy.

Senator Schweiker said he did not intend to focus attention on the Bureau in this matter but simply was trying to underscore the need for an Inspectors General Office in the Department of Justice. He said he feels certain that other agencies of Government have similar policies.

Re: SENSTUDY

He agreed that the policy is a sound one but said the rule is rather awkwardly worded. Schweiker said he had not intended to be critical of the Bureau and wanted Mr. Kelley to know that he has the utmost confidence in his leadership of the Bureau and has said so on two national television programs. He assured Mr. Hotis that he would insert the Bureau's explanation into the record immediately following his questioning of the Attorney General on the subject.

Copies of the Bureau's explanation were delivered on the morning of 11-7-75 to Duggee Hatrey, an assistant in the Senator's office. We were later advised by Elliott Maxwell, a staff member of the committee, that Senator Schweiker asked him to make certain that this explanation appeared in the record of the hearings.

On morning of 9/2/75, Mr. Michael E. Shaheen, Jr., Special Counsel for Intelligence Coordination, Department of Justice, was asked if the Department interposed any objection to the Bureau referring to various surreptitious entries which were made in connection with the four Soviet illegals. Mr. Shaheen advised that the Department would interpose no objection to the Bureau referring to the surreptitious entries made in connection with our investigations of the four Soviet illegals.

Mr. Shaheen suggested that, at the outset of the briefing for SSC personnel, such personnel be advised that the Department is conducting an investigation to determine whether any criminal culpability is involved regarding surreptitious entries conducted by the Bureau in the past.

The following concerns an interview conducted by SSC Staff Members of former FBI SA C. Edwin Glass, Jr.

Prior to the interview, Glass was given a release by the FBI from his confidentiality agreement with the FBI for the purpose of the interview.

The following is a statement which Glass voluntarily furnished and which reports the results of the interview.

After obtaining clearance from the Bureau, retired SA C. Edwin Glass, Jr., was interviewed on September 25, 1975, at the offices of the Select Senate Committee by Arthur Harrigan, James DeMarco, and Barbara Banoff. A court reporter was also present. Glass signed an advice of rights statement prior to the interview. The interview lasted two hours and 15 minutes.

was an annual check of IRS "in accordance with existing instructions." The interview centered on FBI checks of IRS records. Mr. Glass explained the procedure followed to check IRS records. He was asked if the field could check these records directly without going through Headquarters, and he said they could not be in security cases. He was asked if instructions to this effect were in the Manual and he replied he thought they were, but was not sure. Mr. Glass was then provided a copy of a letter listing the subjects who had been checked through IRS for tax returns and asked to identify those who were KBEs and extremist subjects. Mr. Glass said that he was of the present opinion that the instruction in the airtel about IRS checks was later amended to indicate that an IRS check on each KBE be considered rather than being mandatory. He said his recollection was bolstered by the fact that LeRoi Jones, a KBE, according to their list, was checked on August 5, 1971, and not again at a later date. This would indicate that an IRS check annually was not mandatory.

Mr. Glass was asked if the Bureau ever had IRS checks made on subjects by other government agencies such as CIA, and he replied not to his knowledge. He told them that IRS checks were made for lead purposes only and were done on a very selective basis and to his recollection were not reported when a report was submitted on a subject.

Mr. Glass was asked if the IRS checks were ever used in the COINTELPRO and he replied that he would think not because of the restriction placed on the use of this information.

He was shown a Xerox of a blind memorandum in the investigation of Bobbie Rush, along with a routing slip and a letter from the Department to IRS, and was asked if the memorandum was the type written in cases requesting an IRS check, and he replied that it was.

SENATE SELECT COMMITTEE ON INTELLIGENCE ACTIVITIES (SSC)

RE: INTERVIEW OF FORMER FBI SA BY SSC

Mr. Glass was asked if the KBE Program was patterned after the Key Activist Program and he said that it was.

Harrigan seemed to be of the opinion that the IRS was part of the COINTELPRO, and he asked some questions about the COINTELPRO which Mr. Glass declined to discuss since he was only cleared to discuss the IRS checks.

Harrigan asked what the purpose of IRS checks was. Mr. Glass responded that the IRS checks were part of the investigation to determine the sources of finances of extremists who traveled extensively, stockpiled weapons and seemed to have no problem financing their activities.

NOTE:

Per Supervisor P. V. Daly of the Legal Counsel Division, Assistant Director Mintz orally waived the confidentiality agreement. This was done for expediency, as the SSC made known its desire to interview Glass immediately preceding the actual interview. Glass' handwritten statement was mailed to the Bureau and typed into the LHM.

This memorandum recommends urgently needed consideration by Legal Counsel Division (LCD) of vital issues in the Senate Select Committee (SSC) review of the Martin Luther King, Jr., investigation and conference of appropriate Bureau officials to establish Bureau's position in respect to forthcoming SSC hearings on King matter.

Legal Counsel to Mr. J. B. Adams memorandum, 11/5/75, "Testimony and Furnishing of Information to Congressional Committees" (copy attached), reports the formation of a White House group tasked to keep the White House advised of problems which the various Congressional Committees' requests and/or testimony before such committees might create. Assistant Attorney General (AG) Rex Lee, Civil Division, is Department's representative in group. The existence of this newly created group and the imminence of scheduled SSC hearings on the King matter in about 10 days makes imperative Bureau considerations and setting of policy relating to special problems discussed below.

By way of background, we have furnished the SSC a large volume of documentary material from our files concerning the King and related matters. Additional information has been given to the SSC through the medium of its interviews of current and former FBI employees, as well as through a special, highly classified personal briefing of Senator Church and selected SSC Staff Members by Bureau

personnel. Two key issues should be noted: (1) In the vast majority of instances we have excised, from material given the SSC, vital information relating to King's subversive connections and personal life because the SSC specifically requested we excise information which is the product of electronic surveillances of King and because information might lead to identities of extremely valuable Bureau informants (SOLO operations). (2) We have also not furnished the SSC very enlightening Bureau documents regarding King again at the specific request of the SSC to not furnish Bureau monographs containing King data. For your information, prohibition to furnishing product of electronic surveillances on King results from certain agreements between the SSC and the attorney for Mrs. King, apparently because, from the best information we have, the King family desires no publicity relating to the former investigation of King.

If the SSC goes forward with its current plans for hearings on the King matter, public and/or executive session, very serious problems are anticipated. These are primarily two in number, one relating to privacy considerations, the other relating to the Bureau possibly being placed in the untenable position of defending or explaining past actions and judgements but not being able to put forth the full facts supportive to those actions and judgements. To put it plainly, are we going to "enter the ring with one arm tied behind our backs?"

Also entering our study of this matter is the necessity for securing Departmental backing for whatever position we think is the best one to take. Again, in view of the imminence of the hearings, alacrity in proceeding with the action recommended is urged.

ACTIONS:

1. LCD immediately give needed consideration to the vital issues outlined above and advise:

- (A) Whether privacy considerations will inhibit Bureau testimony.
- (B) Whether the Bureau should allow the SSC to dictate the scope of the Bureau testimony in a manner which will prohibit full disclosure of all the facts.

2. After LCD formulates recommendations as to (A) and (B) above, conference of appropriate Bureau officials should be convened to resolve these important pending issues. It is suggested, as a minimum, conference include Messrs. J. B. Adams, J. A. Mintz, W. R. Wannall, W. O. Cregar and S. F. Phillips.

TESTIMONY AND FURNISHING OF INFORMATION
TO CONGRESSIONAL COMMITTEES

On 11/4/75 at the request of the Department, SA Paul V. Daly of this Division met with Assistant Attorney General of the Civil Division Rex Lee and his assistant, Tom Martin, along with Michael E. Shaheen, Jr., Special Counsel for Intelligence Co-ordination in the Department, and his assistants, Ray Hornblower and Steven Blackhurst, to discuss anticipated testimony before various Congressional Committees and possible areas of future problems as a result thereof.

Lee advised that he had been appointed by the Attorney General to be the Department's representative on a White House group whose task it was to keep the White House advised of problems which the various Congressional Committee requests and/or testimony before such Committees might create. The group, according to Lee, is referred to as the Early Warning List Group. The duties of this group are to identify problem areas, analyze the problems and give guidance to the White House as to the appropriate response to a particular problem.

Lee stated that the purpose of the group was to prevent the White House from being surprised by some disclosure to Congress which would create "problems." Among those on the group, according to Lee, are Mitchell Rogovin, CIA; Michael Duval, White House; William Hylan, State Department, and Jack Marsh, Chairman, representing the White House.

Lee stated this group was to meet daily, if necessary, to keep the White House advised of problem areas and he was desirous of being continually advised of any anticipated problems which might be divulged to the Congressional Committees. Lee was generally briefed by SA Daly of the schedule of anticipated testimony before the various Congressional Committees and in a general fashion, of the types of requests for information which this Bureau had received from Committees of Congress. Lee requested that he be again briefed at 3 p.m. on 11/6/75 in more detail concerning the individual Committee requests made of the Bureau.

Re: Interview of Former FBI Special Agent (SA)
George C. Moore by SSC Staff Members

At 2:00 p.m., September 29, 1975, I appeared at the Dirksen Senate Office Building at the request of Staff Member James Dick to be interviewed regarding NSA monitoring activities.

(As a matter of interest, while waiting in the reception room for Mr. Dick, I was approached by Mr. John Elliff who introduced himself and asked if I remembered meeting him in the office of former Assistant Director G. D. Brennan about four years ago. I did not remember him and so informed him. He stated that sometime in the next several weeks he would contact me in order to discuss a number of things. I told him that I would be available in the afternoons but desired some advance notice.)

The captioned interview commenced at about 2:05 p.m. and lasted about one hour and 30 minutes. It was conducted by Mr. James Dick accompanied by Mr. Peter Fenn, both members of the Senate Select Committee on Intelligence Staff. The interview was recorded by a stenotypist who was described as a "court reporter." I was not placed under oath but was advised that I would be asked to come back to read the typed transcript and to swear as to its authenticity before a Senator from the Committee. I was told that I could have the benefit of counsel if so desired. I did not desire such.

The focus of the interview was directed almost solely on my knowledge of NSA's monitoring activities with respect to U. S. citizens and, in particular, was directed at my knowledge as to when such monitoring commenced and stopped and the nature of the administrative matters surrounding this activity.

Re: Interview of Former FBI Special Agent (SA)
George C. Moore by SSC Staff Members

During the interview, I was shown a letter prepared during October, 1970, by Special Agent Joseph Michela with attached list of individuals and organizations directed to NSA requesting NSA coverage. My initials appeared as one of those approving the letter and I verified such and related my knowledge of events leading up to the preparation of the letter, namely an earlier briefing by NSA people of various representatives of Division 5 in which we were told what NSA could produce for us and at which time we were encouraged to request such by a letter such as the October, 1970, letter.

Other FBI documents (copies) which were exhibited to me were two other letters prepared by members of the Extremist Section (dates not remembered by me but letters were prepared by William H. Atkinson and Roger S. Young). I was also shown a copy of a letter prepared by T. J. Smith to the Attorney General dated in 1973 which discontinued our cooperation with NSA in this matter as a result of the Keith decision.

A number of questions were asked as to meaning of some of the phrasology in Smith's letter as well as what appeared to be statements inconsistent with above previous-mentioned letters. In essence, I told them that T. J. Smith would be the proper person to answer those questions and not me. I also told them that I did not help prepare the letter.

They were interested in the identities of NSA people who came over to the FBI to give the original briefing. I could not recall any of their identities.

They seemed very interested in why the October, 1970, letter was written, who approved it and whether Director Hoover saw it. As to the latter question, there was no initial of the Director but he could not tell from the Xerox whether it passed through his office.

Re: Interview of Former FBI Special Agent (SA)
George C. Moore by SSC Staff Members

I was pressed by a series of questions as to whether I had ever made oral requests of NSA not confirmed by letter. I advised that I recalled being in telephone contact on several occasions with a "liaison contact" at NSA but believed it was mainly as a result of his calling me and my returning his call. I stated that although my recollection is such that I did not recall making oral requests, I could not make a firm denial as I just could not recall. (I also could not recall the name of this person at NSA who initiated the calls). Finally, I told Mr. Dick that if he had any information indicating I had made such a request which would refresh my memory, such would be helpful. He then advised that he did have information such requests were made by others in the FBI orally but not by me.

He also wanted to know my assessment as to the quantity and quality of information furnished. He was advised that the quantity was extremely small and I could not judge or evaluate quality at this date without seeing the product again.

I tried to stress throughout that actually we got very little as a result of these requests and that we considered such requests to be quite normal and not sinister and really nothing to have made such an impact on ones memory as to be remembered through the years. Also, I furnished my opinion that we did not consider such monitoring or requests to be "illegal" at least prior to the Keith decision.

In addition to the above, the interviewers were advised of a briefing given to a small group of NSA employees re "Foreign Influence in Extremist Matters" given by former SA C. E. Glass and me sometime after October, 1970.

Staff Member Fenn showed me a couple of documents re Army's request for NSA monitoring, copies of which had been furnished the FBI according to copies displayed. I did not recall ever having seen them.

Respectfully furnished

**RE: INTERVIEW OF MRS. ERMA D. METCALF,
ADMINISTRATIVE ASSISTANT TO THE DIRECTOR
OF THE FBI, BY SSC STAFF MEMBERS**

The following pertains to an interview of Mrs. Metcalf by SSC Staff Members.

On September 2, 1975, SSC Staff Member Mark Gitenstein requested of the Legal Counsel Division of the FBI that Mrs. Metcalf, among others, be made available for a Staff interview concerning her knowledge of the "official and confidential" files which were maintained in the office of Mr. J. Edgar Hoover, the late Director of the FBI. Mrs. Metcalf had been previously interviewed by personnel of the FBI's Inspection Division during an inquiry of the "official and confidential" files matter which was conducted at the request of the Department of Justice. The SSC has been previously furnished a summary of the results of that inquiry and has reviewed FD-302s reporting the results of interviews of employees concerning the matter. Director Clarence M. Kelley of this Bureau approved the release of Mrs. Metcalf from existing employment agreement for the purpose of the SSC Staff interview. There follows the report of the interview of Mrs. Metcalf as furnished by her.

On Tuesday, October 21, 1975, I was interviewed by Mary DeOreo and Mark Gitenstein, at the Bureau in Assistant Director John Mintz's office. Interview commenced at 9:35 AM and was concluded by 10:45 AM. I was not sworn in, nor advised of my rights. Prior to the interview I had been informed by SA Paul Daly that it was merely an interview and was to pertain to the files maintained by former Director John Edgar Hoover, and that while I would not have an attorney with me, should any question arise which I felt was outside the scope of the inquiry, to call either SA Seymour Phillips or himself, Mr. Daly. Mr. Gitenstein did most of the questioning with Miss DeOreo taking notes, although she asked some questions also. Set out below is a summary of the questioning, although it may not be in the order asked.

Re: Interview of Mrs. Erna D. Metcalf,
Administrative Assistant to the Director
of the FBI, by SSC Staff Members

The questioning started about when I entered on duty in the Bureau and when I was assigned to Director Hoover's office and the positions held in that office. I was shown a sketch which I understood had been drawn by Miss Gandy reflecting the physical layout of Director Hoover's office and using this layout, I told them that when I was first assigned to the Director's office, I was secretary to Mr. Holloman and pointed out where my desk was located and that I was not in the immediate office with Miss Gandy until 1963.

I was asked about whether Mr. Hoover may have confused personal files and official-confidential (OC) files and I told them I certainly felt that was not the case. I was told that in some of the files there would be a "buck-slip" with "P.F." written on it and was asked whether the Director wrote those or Miss Gandy, and that was why they asked if Mr. Hoover might have confused the two. I was told that actually they could not tell in some instances if it was Miss Gandy's writing or the Director's and that there were several, particularly during 1963. I told them that I was sorry but I could not help them, that actually I was on sick leave in May, 1963, and again from June, 1963, until January, 1964. I was asked who would have been on my desk during that period and I told them Miss Ruth McCord.

Mr. Gitenstein indicated that it had been learned from a previous interview that there were approximately 11 file cabinets in the office containing personal files and OC files and that an index was kept. I told them that was my recollection and of those, two drawers were the OC files and these were in two bottom drawers of one cabinet and that actually, there was a table in front of those drawers with reference books and such kept on top and in order to get to those files, indicating there was certainly not much reference to them, it was necessary to pull that table out to get to them. As to the index, it was one index, and to distinguish personal files from OC files,

U. S. Senate Select Committee

Re: Interview of Mrs. Erma D. Metcalf,
Administrative Assistant to the Director
of the FBI, by SSC Staff Members

the OC files were indexed on pink cards and personal files on white. I was asked if those files were encased in a cabinet, and I told them they were not, that they were merely filing cases; however, in back of Miss Gandy's desk were, I believed if I recalled correctly, four two-drawer filing cabinets, stacked, which were in a cabinet built for them and these contained strictly Mr. Hoover's investment and financial records. I was asked if in the personal files there were any files such as on telephone bills or the like. I told them there was not, but that in one cabinet there were 2 or 3 drawers which Miss Gandy maintained on such things as telephone and matters pertaining strictly to the maintenance of Mr. Hoover's house.

In regard to the OC files, I informed them that those were sent to Mr. Felt during the week of Mr. Hoover's death as well as pulling the pink index cards, which were then sent to Mr. Felt. I was shown a listing of files in the OC files and was asked if I had prepared it. I told them I had and was asked about the two dates, one in October, 1971, as I recall, which had been scratched out and the date of 4- -72 written over it. I told them that I had a very hazy recollection, but it seemed that Miss Gandy had indicated the Director wanted a listing of the OC files and the one in October was prepared; that Mr. Hoover before his death had started going through his personal files and indicating which were to be destroyed or kept and in those were a few which he indicated should go in the OC files. Upon being questioned as to how this was physically handled, I told them that I would pull the files, place them in a work box and Miss Gandy would take them in to the Director and the Director indicated to her his desires and she would so indicate by putting a notation on the file itself. I said that I would then destroy the ones so indicated and would pull the index cards from the index pertaining to those. Mr. Gitenstein

U. S. Senate Select Committee

Re: Interview of Mrs. Erma D. Metcalf,

pointed out that some of the listing was single spaced and most double spaced and asked if those would show some of the personal files were indicated for OC by the Director and were merely added in and since most of the single spaced items were at the beginning of the alphabet, down into the "B's," that Mr. Hoover had gotten through that many of his personal files, and I told him I felt that was the case. In regard to some other single spaced items later in the alphabet, I told him that I felt in preparing the list originally, I had gotten one or two out of order alphabetically and rather than do over the page, did it that way.

As to the October date being scratched out and the 4- -72 date written over it, I said that I felt that it was an error on my part, that instead of putting 5 (for May), particularly since it was right at the beginning of the month, I inadvertently wrote "4" instead of "5." I was questioned about the check marks appearing beside the listing some of which had 2 check marks, and I said that I checked the listing against the actual files and checked them off and where there were 2 checks, I had probably started checking the list and was interrupted and simply started over again.

In regard to the destruction of the personal files, they were primarily interested in ones sent to Mr. Hoover's home and why and asked if I recalled a conversation Miss Gandy had with Mr. Gray and Mr. Felt pertaining to furnishing a room at the Bureau where Miss Gandy could continue working on the files and it was decided they could be sent to Mr. Hoover's home where Miss Gandy could continue to work on them. I told them I recalled Mr. Gray being in the office a couple of times or so, once when he held an Executives Conference and a time or two when he stopped in and his talking to Miss Gandy, but that I went ahead with my work and was not a party to the conversation and therefore did not pay any attention.

Re: Interview of Mrs. Erma D. Metcalf,

I was asked about the index for the personal files and I said it was destroyed. They asked about the procedure of destroying the personal files and I advised I started at one end and Miss Gandy, of course, was occupied with Mr. Hoover's office and packing up the library, etc., and she was working on the other end of the alphabet; I was asked if as the files were destroyed they were checked as to whether anything should go into the OC files and whether letterheads or any other manner was used as criteria and I told them that was not the case as actually letterheads would really not be good criteria; that it was simply a matter of judgment and, of course, having worked with the files, I would be familiar with the content of a lot of them. I also said that while we had files on all the honors and awards to the Director, they were merely copies of material in Bureau files. I was asked if in going through the personal files, any were pulled and placed in the OC files and I told them I recalled none being added to the OC files other than the ones added by Mr. Hoover prior to his death. They asked if any files were pulled from the personal files not for destruction and I stated I recalled one which pertained to an honor or award Mr. Hoover had received from Romania, I believed, although I could not be sure, which I gave to Miss Gandy inasmuch as I felt it should go back to the State Department or some such procedure followed. I was asked if there were any files in the personal files which were not correspondence and I said I could cite one example and that pertained to Mr. Hoover's dogs - their licenses, shots, etc. I was asked if, when a personal file was pulled and destroyed, at that time the index cards were pulled and destroyed, and I told them that was not the case, that it would be too time-consuming to pull the cards individually and that they were destroyed all at once, after, of course, having pulled the pink OC index cards which were sent to Mr. Felt.

I was asked in connection with the destruction of the personal files whether someone from the Washington Field Office came over with an Agent with him to get the material for destruction.

Re: Interview of Mrs. Erma D. Metcalf,
Administrative Assistant to the Director
of the FBI, by SSC Staff Members

I advised that at the beginning, I was simply tearing them up and putting them in the confidential trash basket, but due to the quantity of it, I was borrowing confidential trash baskets and then we started getting the big trash bags and that someone from Washington Field would come over to get it for disposal. They questioned about whether any of it was in boxes which were sealed and then picked up, and I told them that I remembered the bags and have a recollection that probably not having bags handy, the material was torn up and placed in boxes, as I recall, trying to arrange the material in the box so as to make it more compact and more room to add more material for destruction.

In regard to the personal files which went to Mr. Hoover's house, I was asked if I recalled how this was done, and I told them I was sorry, but I simply could not recall. I was also asked if there was a time when we said it was done and over, that the job had been completed. I told them I could not say that it actually came up, that it was strictly a matter of being in shock, trying to clean out after someone has passed away, to make room for someone else to come in.

I was asked whether I had ever been out to Mr. Hoover's home, particularly after his death. I told them I had not been to Mr. Hoover's home since his death; however, when Miss Gandy was on leave and I was covering her desk, each Saturday a pouch of work was taken out to Mr. Hoover's home and I merely went to the house to deliver the pouch, but did not enter. I was asked if I was in contact with Miss Gandy while she was still working at the house on the files and any discussion was had concerning them and I told him that Miss Gandy is a friend of mine and we do call each other occasionally and sometimes meet for dinner, but these are and were merely social and we did not discuss such things.

Re: Interview of Mrs. Erma D. Metcalf,
Administrative Assistant to the Director
of the FBI, by SSC Staff Members

I was asked if I recalled any personal file cabinets being moved to Mr. Hoover's home and I told them I did not; that some of the empty ones were removed as it was not felt he would need that many. I was asked if I stayed on in Mr. Gray's office. I told them I did.
